

This architectural floor plan shows a kitchen and bathroom. The kitchen, located in the bottom left, includes a sink, a four-burner stove, and a refrigerator. The bathroom, situated in the top center, contains a bathtub, a toilet, and a shower. A large, open living area is positioned to the right of the bathroom. The plan also shows a central hallway and a small square room with a window, possibly a closet or a small bedroom. The layout is compact and efficient, with a clear separation between the kitchen, bathroom, and living spaces.
