Hey Mark,

Sorry to bug ya man (I know how busy you and the team get). But with all the wind/rain we've been getting, I happened to notice that there was a build up of water at the entrance/exit to my balcony (see attached pictures). I cleaned it up, but I have a feeling the sealant that was put on didn't completely seal it.

Can your team help out?

Let me know what ya think.

Thanks again Mark

Kev (Eve - 1005)
