Hi Sarita,

As per our conversation yesterday mark has the opportunity to fix the cracked tile and the base of your cabinet on Thursday March 15<sup>th</sup> between the hours of 1:00pm-4:30pm, as time permits. From my understanding you have a tenant moving in today, please advise your tenant that works needs to be done in your unit. We ask that anything blocking the tile and the cabinet be moved.

Please see attached for the pictures that were taken during Marks visit to your unit. He has found a replacement tile and will install it on Thursday (see attached).

Regards,

CHANTAL ANDRADE
