Equifax Credit Report and Score ™ as of 05/05/2017

Name: Chulhyun Hyun Kim

Confirmation Number: 3790640084

Credit Score Summary

Where You Stand

717 Good

The Equifax Credit Score™ ranges from 300-900. Higher scores are viewed more favorably. Your Equifax credit score is calculated from the information in your Equifax Credit Report. Most lenders would consider your score good, Based on this score, you should be able to qualify for credit with average interest rates and offers.

			erita.		
Range Canada Population	300 - 559 Poor 4%	560 - 659 Fair 10%	660 - 724 Good 15%	725 - 759 Very Good 14%	760 + Excellent 57%

What's Impacting Your Score

Below are the aspects of your credit profile and history that are important to your Equifax credit score. They are listed in order of impact to your score - the first has the largest impact, and the last has the least.

Number of inquiries in last 3 months.

Percentage of revolving trades opened within the last 2 years to total trades.

Number of open revolving trades.

Your Loan Risk Rating

717 Good

Your credit score of 717 is better than 27% of Canadian consumers.

The Equifax Credit Score ™ ranges from 300-900. Higher scores are viewed more favorably.

The Bottom Line:

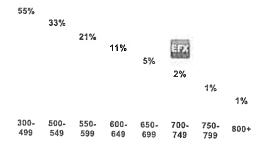

Lenders consider many factors in addition to your score when making credit decisions. However, most lenders would consider you to be a moderate risk. You may not qualify for credit with all lenders. When you do qualify for credit, you may pay higher interest rates and be subject to more restrictive loan terms than those with higher scores if you're in the market for credit, this is what you might expect:

You may not qualify for high credit limits on your credit card. You are likely to pay higher interest rates on all types of loans than those with higher scores.

The loan terms you receive may be somewhat restrictive.

It is important to understand that your credit score is not the only factor that lenders evaluate when making credit decisions. Different lenders set their own policies and tolerance for risk, and may consider other elements, such as your income, when analyzing your creditworthiness for a particular loan.

Delinquency Rates*

 Delinquency Rate is defined as the percentage of borrowers who reach 90 days past due or worse (such as bankruptcy or account charge-off) on any credit account over a two year period.
