PURCHASER(S) MAHMOUD SHEHADA

The Purchaser acknowledges and agrees that the Vendor's obligation to install the chosen finishing selections is conditional and subject to the following terms and conditions.

1. Finishing choices are from Vendor's samples. Colour, texture, appearance, grain, etc. of all installed materials may vary from Vendor's samples due to manufacturing, natural variations in colour, product and installation process. The Purchaser acknowledges that the Vendor accepts no responsibility in the event that a chosen selection becomes subsequently unavailable for any reason whatsoever. If the Vendor is unable or unwilling to supply any of the Purchaser's selections, the Purchaser will, at the request of the Vendor, choose an alternate selection from the Vendor's samples within seven (7) business days of being notified by the Vendor to do so. If the Purchaser does not re-select within seven (7) business days, the Vendor will make such selections, which selections shall be final and binding on the Purchaser.
2. Where the Purchaser has made Upgrade selections or requested changes that are subject to additional charge, and provided the Vendor or its Sales Representative has notified the Purchaser of its agreement to complete same and the cost(s) for such Upgrade or change request, the Purchaser shall pay the total amount owing by certified cheque to the Vendor within seven (7) business days from being so notified. All cheques are to be made payable to Aird & Berlis LLP, in Trust. Failure to pay the Upgrade or change request fees within the permitted time shall constitute a default under the Agreement of Purchase and Sale and, in such event, the Vendor may, at its option and without further notice, complete the unit to its original specifications.
3. The value of any credit(s) issued to the Purchaser for incomplete or deleted items, where applicable, shall be calculated by the Vendor in its sole and unfettered discretion and shall be non-negotiable. Credit(s), where applicable, shall be adjusted on the final closing Statement of Adjustments.
4. The Purchaser acknowledges and agrees that there shall be no change, alteration or deletion from this finishing selections sheet after acceptance by the Vendor.
5. If any Upgrade or item of finishing remains incomplete in whole or in part on the Occupancy Date, the Purchaser shall accept, without holdback, the Vendor's undertaking to complete such upgrade or item of finishing as soon as possible following occupancy closing. In the event the Vendor elects not to provide or install any selected upgrade or item of finishing that is at additional cost, the Vendor shall refund to the Purchaser by way of an adjustment on the final Statement of Adjustments that portion of the amount paid by the Purchaser allocated to the particular Upgrade or item of finishing not provided. The value of such adjustment to be determined by the Vendor in its sole and unfettered discretion. The said adjustment shall be accepted by the Purchaser as full and final settlement of any claim the Purchaser may have with respect to the said Upgrade or item of finishing and the Purchaser shall complete the closing (whether occupancy or final) without delay, condition or holdback.

It is hereby understood and agreed between the Vendor and the Purchaser that the following change(s) shall be made to the above-mentioned Colour Selection Agreement, and except for such change(s) noted below, all other terms and conditions of the Agreement shall remain as stated therein, and time shall continue to be of the essence.

The image shows a document page with a table-like structure. The table has multiple columns and rows, but the content is mostly illegible due to the high contrast and noise. There are dark, irregular shapes along the right edge, possibly representing binding or scanning artifacts. The overall quality is poor, with significant noise and artifacts.

Figure 1 consists of a 3x3 grid of line graphs. Each graph plots the 'Number of children not in school' (y-axis, 0 to 10) against the 'Number of children' (x-axis, 0 to 10). The graphs are labeled with the number of children in school (0 to 8). The graphs show a decreasing trend, with the rate of decrease slowing down as the number of children increases. The graphs are labeled with the number of children in school (0 to 8).
