Signature Features

SLEEK, BUILT-IN LOOK

- Stylish, counter-depth design allows for more work space in the kitchen.
- Sleek, built-in look enhances overall kitchen design.

TWIN COOLING PLUS®

- Keeps food fresher longer – Twin Cooling Plus humidity levels up to 3.6x higher than single cooling.
- Refrigerator air is kept at higher, near commercial grade humidity levels to keep perishable fruits and vegetables fresher longer.
- Drier freezer air means less freezer burn for better-tasting frozen foods.

ICE MASTER

- Our Ice Master makes 5.2 lbs. of ice per day with storage for nearly 2.7 lbs.
- Space-saving design leaves more room in the refrigerator.

COOL SELECT PANTRY™

- Provides additional temperature control for your food storage needs with Deli, Fresh and Chilled options.

**Ranked "Highest in Customer
Satisfaction with Refrigerators"**
by J.D. Power and Associates.

RF23HCEDBSR

22.5 cu. ft. Counter-Depth French Door Refrigerator with Cool Select Pantry™

Installing Your Refrigerator

1. Measure the height, width and depth of the opening, making sure to include baseboards, molding tile, countertop overhang, etc. Check to be sure there is enough room to open the door (consider walls, islands or other obstacles when measuring).
2. Refer to illustration below to determine dimensions.
3. Allow 2" of clearance on hinge side of refrigerator when installing next to a wall where handle may make contact.
4. Allow 1" minimum clearance at rear for proper air circulation and water/electrical connections. Allow a 3/8" minimum clearance at sides and top for ease of installation.
5. Ensure each door and entry way in the home is wide enough for the refrigerator to be moved through easily.

Please note: The following dimension and cutout information is for planning purposes only. For complete installation details consult manual packed with product, or download manual on-line at samsung.com.

Dimensions

Total Capacity: 22.5 cu. ft.

Refrigerator: 15.7 cu. ft.

- Premium External Filtered Water and Ice Dispenser
- Ice Master Ice Maker
- CoolSelect Pantry™ with Temperature Control – Deli (41°C), Fresh (38°F) and Chilled (32°F) options

SAMSUNG

Samsung received the highest numerical score for refrigerators in the proprietary J.D. Power and Associates 2012 Kitchen Appliance Study™. Study based on 12,615 total responses measuring 17 brands and measures opinions of consumers about their refrigerator obtained new in the past 24 months. Proprietary study results are based on experiences and perceptions of consumers surveyed in January-February 2012. Your experiences may vary. Visit jdpower.com.

Actual color may vary. Design, specifications, and color availability are subject to change without notice. Non-metric weights and measurements are approximate.

Front-Loading Washer

PRODUCT MODEL NUMBERS

WFW7590F, WFW75HEF, WFW90HEF,
WFW92HEF

Washer Dimensions:

Recessed or closet installation -
stacked washer and dryer

* Add spacing of 1" (25 mm) on all sides of washer/dryer.

PRODUCT MODEL NUMBERS

WFW7590F, WFW9290F, WFW85HEF

Washer Dimensions:

Recessed area or closet installation (washer only):

* Add spacing of 1" (25 mm) on all sides of washer.

Custom cabinet installation (washer only):

** Recommended 4" (102 mm), minimum 1.5" (38 mm)

Undercounter installation - washer only:

All dimensions show recommended spacing allowed, except for closet door ventilation openings which are the minimum required.

For each arrangement, consider allowing more space for ease of installation and servicing, and spacing for companion appliances and clearances for walls, doors, and floor moldings.

Space must be large enough to allow door to fully open. Add spacing of 1" (25 mm) on all sides of washer to reduce noise transfer. If a closet door or louvered door is installed, top and bottom air openings in door are required.

ELECTRICAL REQUIREMENTS

A 120 volt, 60 Hz., AC only, 15- or 20-amp, fused electrical supply is required. A time-delay fuse or circuit breaker is recommended. It is recommended that a separate circuit serving only this appliance be provided.

DRAIN SYSTEM

Drain system can be installed using a floor drain, wall standpipe, floor standpipe, or laundry tub. Select method you need.

IMPORTANT: To avoid siphoning, only 4.5" (114 mm) of drain hose should be inside standpipe. Always secure drain hose with cable tie.

Floor standpipe drain system

Minimum diameter for a standpipe drain: 2" (51 mm). Minimum carry-away capacity: 17 gal. (64 L) per minute. A 1/4" (6 mm) diameter to 1" (25 mm) diameter Standpipe Adapter Kit is available (Part Number 3363920). Top of standpipe must be at least 30" (762 mm) high; install no higher than 96" (2.44 m) from bottom of washer. If you have an overhead sewer and need to pump higher than 96" (2.44 m), a sump pump and associated hardware are needed. See "Alternate Parts".

Wall standpipe drain system

See requirements for floor standpipe drain system.

Laundry tub drain system

Minimum capacity: 20 gal. (76 L). Top of laundry tub must be at least 30" (762 mm) above floor; install no higher than 96" (2.44 m) from bottom of washer.

Floor drain system

Floor drain system requires a Siphon Break Kit (Part Number 285834), 2 Connector Kits (Part Number 285835), and an Extension Drain Hose (Part Number 285863) that may be purchased separately. See "Alternate Parts". Minimum siphon break height: 28" (710 mm) from bottom of washer. (Additional hoses may be needed.)

30" Self-Cleaning Gas Convection Range with Bake/Warm/Storage Drawer
Model #: PCGS910SEFSS

\$3,049

Approximate dimensions: 36 H x 30 W x 28 1/2 D (in.)

8 REPLACING THE OVEN DOOR

NOTE: The oven door is heavy. You may need help lifting the door high enough to slide it into the hinge slots. Do not fit the door by the handle.

- Let the oven door hang from the hinges. Do not fit the door by the handle.
- With the door at the same angle as in the original position (approximately 1°-2°), lift the door and slide it into the hinge slots. The handle will now be in the correct position.
- Slide the door into the hinge slots. The handle will now be in the correct position.
- Slide the door into the hinge slots. The handle will now be in the correct position.
- Slide the door into the hinge slots. The handle will now be in the correct position.

REPLACE THE STORAGE DRAWER

- Place the drawer into the oven. Push the drawer in until it stops.
- Slide the front of the drawer and push in until the drawer stops.
- Cover the front of the drawer and push in until it stops.

9 COOKTOP BURNERS

ASSEMBLE THE BURNERS

CAUTION: The burner valve is a gas valve. It is not to be used for anything other than its intended purpose. Do not use it for anything other than its intended purpose.

FOR GAS COOKTOPS:

- Place burner heads over the orifices, in the correct locations according to the diagram.
- Place burner heads over the orifices, in the correct locations according to the diagram.

FOR ELECTRIC COOKTOPS:

- Place burner heads over the orifices, in the correct locations according to the diagram.
- Place burner heads over the orifices, in the correct locations according to the diagram.

WARNING: If the burner does not light within 15 seconds, turn the knob off and wait 5 minutes before trying again.

WARNING: If the burner does not light within 15 seconds, turn the knob off and wait 5 minutes before trying again.

WARNING: If the burner does not light within 15 seconds, turn the knob off and wait 5 minutes before trying again.
