StormWash™

Quiet Operation

Available Color

Stainless Steel

Signature Features

StormWash™

POWERFUL WASHING FOR YOUR TOUGHEST DISHES

- Heavy-duty wash system makes pre-rinsing unnecessary.
- Powerful rotating spray jets positioned to clean dishes at every angle.
- Simply place hard-to-clean items above the StormWash™ wheel on the bottom rack and it scrubs them for you.

Performance
(46dBA/water
usage)

QUIET, POWERFUL.

- First-rated 46 dBA makes it among the quietest in its class.¹
- A six-layer door and special insulation system significantly minimizes noise during operation.²
- Only 4 gallons of water used per cycle saves on water usage.

*Based on NSF report
†Based on NSF report
‡Internal testing at 46 dBA to 48 dBA. Normal conversation is approx. 60 dBA.

ENERGY
STAR®

ENERGY EFFICIENT

- This dishwasher is ENERGY STAR® 2013 Tier 1 compliant so that you can save money on your energy and water bills.
- Uses less than 265 kWh of power per year,³ exceeding Department of Energy standards.

Based on DOE estimates.

Signature Features

FILTERED WATER

- Get great-tasting, filtered water directly from your refrigerator. Spend less time and money buying bottled water.

TWIN COOLING PLUS™

- Refrigerator air is kept at higher, near-commercial grade humidity levels to keep perishable fruits and vegetables fresher longer.
- Drier freezer air means less freezer burn for better-tasting frozen foods.

HIGH-EFFICIENCY LED LIGHTING

- High-efficiency design beautifully lights up the interior so you're able to quickly spot what you want.
- Sleek design saves more space than traditional incandescent light bulbs.

Ranked "Highest in customer satisfaction with French Door refrigerators, in a tie."*

SAMSUNG

RF261BEAESR

26 cu. ft. French Door Refrigerator with Internal Filtered Water Dispenser

Installing Your Refrigerator

1. Measure the height, width and depth of the opening, making sure to include baseboards, molding, tile, countertop overhang, etc. Check to be sure there is enough room to open the door (consider walls, islands or other obstacles when measuring).
2. Refer to illustration below to determine dimensions.
3. Allow 2" of clearance on hinge side of refrigerator when installing next to a wall where handle may make contact.
4. Allow 1" minimum clearance at rear for proper air circulation and water/electrical connections. Allow a 3/8" minimum clearance at sides and top for ease of installation.
5. Ensure each door and entry way in the home is wide enough for the refrigerator to be moved through easily.

Please note: The following dimension and cutout information is for planning purposes only. For complete installation details consult manual packed with product, or download manual on-line at samsung.com.

Dimensions

Total Capacity: 25.5 cu. ft.

Refrigerator: 17.5 cu. ft.

SAMSUNG

NE59J7650WS

5.9 cu. ft. Freestanding Electric Range

Installing Your Range

*30" minimum clearance between the top of the cooking surface and the bottom of an unprotected wood or metal cabinet; or 24" minimum when the bottom of the wood or metal cabinet is protected by not less than 1/4" flame-retardant millboard covered with not less than no. 28 MSG sheet steel, 0.015" stainless steel, 0.024" aluminum or 0.020" copper.

**15" minimum between the countertop and the adjacent cabinet bottom.

IMPORTANT: To eliminate the risk of burns or fire caused by reaching over heated surface units, cabinet storage space located above the surface units should be avoided. If cabinet storage is to be provided, the risk can be reduced by installing a range hood that projects horizontally a minimum of 5" beyond the bottom of the cabinets.

Dimensions

Drain facility

The recommended height of the standpipe is 18 in/46 cm. The drain hose must be routed through the drain hose clip to the standpipe. The standpipe must be large enough to accept the outside diameter of the drain hose. The drain hose is attached at the factory.

Flooring

For best performance, you must install your washer on a solidly constructed floor. Wood floors may need to be reinforced to minimize vibration and/or unbalanced load situations. Carpeting and soft tile surfaces are contributing factors to vibration which can cause your washer to move slightly during the spin cycle.

Never install your washer on a platform or weakly supported structure.

Location considerations

Do not install your washer in areas where water may freeze, since your washer will always retain some water in its water valve, pump, and hose areas. Freezing water can damage the belts, the pump, hoses and other components.

Alcove or closet installation

MINIMUM CLEARANCES FOR CLOSET AND ALCOVE INSTALLATIONS:

Sides – 1 in / 25 mm

Top – 17 in / 432 mm

Rear – 5.9 in / 150 mm

Closet Front – 2 in / 51 mm

If the washer and dryer are installed together, the closet front must have at least a 72 in² (465 cm²) unobstructed air opening. Your washer alone does not require a specific air opening.

A. Recessed area

B. Side view - closet or confined area

Undercounter installation (washer only)

installing your washer

With optional pedestal base or stacking kit

Required Dimensions for Installation With Pedestal (Model No : WE357*)

Required Dimensions for Installation With Stacking Kit (Model No : SK-5A)

* Required spacing

** External exhaust elbow requires additional space.
