Product Description

Panasonic NNSE795S Panasonic's Newest Genius, Prestige Plus Microwave oven produces incredible results thanks to new Cyclonic Wave Inverter® Technology. This new technology circulates microwave energy within the oven ensuring even cooking every time. This model also features an electrostatic glass-touch control panel, includes LED lighting and is finished in high quality, finger print proof, stainless steel.

Product Features

Cyclonic Wave technology circulates microwave energy within the oven ensuring even cooking every time.

The industry's only advanced electrostatic glass touch control panel features a clean, modern design!

The LED lighting system found in this oven uses less energy than traditional microwave ovens.

Panasonic has enhanced the design with fingerprint resistant stainless steel for the door and body

Genius Sensor Cooking automatically determines the appropriate power level and monitors your meal for optimal results.
