In the event that the Contractor does permit the Sub-Contractor to use materials and/or supplies which are used, remanufactured, refurbished, and/or a floor model the Sub-Contract must provide the Contractor the equivalent warranty against defects and workmanship which would have accompanied the new material and/or supplies. No Exceptions.

- O3.03 The Sub-Contractor shall conform to the above requirements as well as the requirements of the Ontario Building Code, National Building Code, the municipality, and the most current CSA standards, WSIB, Occupational Health and Safety Act of Ontario as well as the requirements of all other authorities having jurisdiction. Comply with all local by-laws, including noise, odor, dust and hours of work.
- O3.04 All work being performed by the Sub-Contractor must be completed in strict compliance with all plans, drawings, reports, colour selections, change orders, and optional upgrades and extras (if any as provided by the Contractor by way of Purchase Order) site plans, specifications, and structural/architectural details (hereinafter collectively known as the "CONSTRUCTION DOCUMENTS"). It shall be the Sub-Contractor's responsibility to ensure that all Construction Documents being used by the Sub-Contractor are accurate and approved the Contractor prior to commencing any work.
- O3.05 The Sub-Contractor shall only use architectural drawings, mechanical drawings, tross drawings, joist layouts, and site plans approved by the municipality and issued with building permit. The Sub-Contractor shall not use tender drawing sets, or drawing sets without the municipal stamps and approval for construction purposes. The Sub-Contractor must make certain that the drawings being used are in fact the construction sets.
- O3.06 The Sub-Contractor agrees to begin and carry out all work within a maximum time frame of twenty four (24) hours of being notified to do so by the Contractor and shall continue to complete the work in a prompt, diligent, workmanlike manor causing minimal interference to the Contractor or any other Sub-Contractors and must adhere to the schedules of the Contractor.
- O3.07 The Sub-Contractor agrees that the work shall be complete in every detail notwithstanding that every item necessary to do so may or may not be mentioned in the Construction Documents provided. The Sub-Contractor's expertise and good judgment to complete the assigned work is essential and as such items and/or labour which may not be mentioned on the Construction Documents that may or not be required to complete the assigned work as intended must be identified and incorporated in completing the work assigned and included in the contract price.
- 03.08 The Sub-Contractor shall be permitted (within reason) to adjust the construction schedules, and/or turnaround times, during the course of construction after consulting and receiving permission from the Site Supervisor.
- The Sub-Contractor hereby agrees to supply only qualified labour with adequate experience and expertise required to complete the assigned work. Furthermore the Sub-Contractor must ensure that all of his/her representatives working on their behalf (including but not limited to: employees, 3<sup>rd</sup> party contractors, temporary labourers, etc...) are adequately trained in all matters related to the work they are carrying out on the Sub-Contractor's behalf and all regulatory safety requirements pertaining to the working be performed.
- In the event that the Sub-Contractor fails to commence work as prescribed by the Contractor, or does not complete the work in accordance with the Construction Documents, or the general intent of the project, or to the satisfaction of the Contractor (at the Contractor's sole discretion) the Contractor may, in addition to its other remedies, terminate this Agreement, and the Sub-Contractor shall be responsible for all damages and/or costs arising out of such default.
- O3.11 All work set out by this Agreement shall be carried out by the Sub-Contractor's own forces. The use of a 3<sup>rd</sup> party contractor shall only be permitted if approved by the Contractor in writing prior to the Sub-Contractor commencing work.
