## **OWNER'S MANUAL**

# FRENCH DOOR REFRIGERATOR

Read this owner's manual thoroughly before operating the appliance and keep it handy for reference at all times.

MFL69497032 Rev.07\_061521 www.lg.com

Copyright © 2020-2021 LG Electronics Inc. All Rights Reserved.

#### **Dimensions and Clearances**

- · Check the dimensions of the appliance and the installation path to ensure there is sufficient room to move the refrigerator through doors or narrow openings.
- If an opening is too narrow to fit the refrigerator through, remove the refrigerator doors. See Removing/ Assembling the Doors and Drawers in this manual.
- · The installation location chosen for the refrigerator should allow space behind the unit for connections and airflow and space in front to open the doors and drawers.
- · Too small of a distance from adjacent items may result in lowered freezing capability and increased electricity consumption charges. Allow at least 24 inches (610 mm) in front of the refrigerator to open the doors, and at least 2 inches (50.8 mm) between the back of the refrigerator and the wall.

### **INSTALLATION INSTRUCTIONS**

#### PREPARING THE ENCLOSURE

Gloves and safety goggles should be worn during installation.

It is not recommended to install the appliance into a corner or directly beside a wall. The door will need to be opened more than 90° to allow full extension of the shelves. If it is necessary to place the unit next to a wall or in a corner, leave at least 2-4 inches (5-10 cm) of space between the wall and the appliance to allow for the door opening.

The cabinet opening must be at least 24 inches (61 cm) wide by 35 inches (88.9 cm) high by 25 inches (63.5 cm) deep.

Note: The listed depth requirement is assuming that the electrical outlet is located in the adjacent cabinetry or flush mounted in the rear wall, not surface mounted inside the enclosure.

If the electrical outlet is located inside adjacent cabinetry, cut a 1.5 inch (3.8 cm) diameter hole to admit the power cord. If the cabinet wall is metal, the hole edge must be covered with a bushing or grommet.

#### **REQUIRED TOOLS**

- Safety goggles Gloves
- Tape measure
- Carpenter square
- Level
- Flashlight
- Electric drill with hole bit
