Exterior Colour Scheme:

Pre-selected By Vendor

NOTE: The Purchaser(s) agree(s) that:

a) Colours of materials are as close as possible to Vendor's selections, but not necessarily identical due to variances in manufacturing or manufacturers.

b) Purchaser(s) has checked and acknowledges accuracy of the above selections. Where omissions occur on the original colour selection sheet Purchaser(s) acknowledge that the Builder's selection will be final.

c) Upgrades or extras listed on this schedule will not be deemed part of the Agreement of Purchase and Sale. Any such upgrades or extras shall be null and void unless accompanied by a separate invoice and amendment. Said invoice must be paid in full.

d) The Purchaser(s) further agrees that in the event that the Vendor has preselected colours prior to the purchase of the house, the prescribed colours are final not withstanding that the Purchaser may have completed a colour selection schedule

d) The Purchaser(s) Acknowledges that once this colour schedule is signed and dated, no changes, additions or deletions will be permitted other than re-selection due to unavailability.

A \$350.00 (Per Occurance) change/administration fee will apply to above exceptions.

This Interior Colour Selection is final and approved by:

Highcastle Homes Décor Centre Disclaimers

Lot#: 9 Model:Hillcrest Elev A in Riverwalk II - 2073737 Ontario Inc.

PURCHASER: CHUKWUEMEKA VINCENT OKOLI

TEL: RES.: 416-317-8184

Through years of doing business, we at Highcastle Homes have encountered issues beyond our control. The following disclaimers apply to all instances of Purchaser's Extras forms and all Interior Colour Scheme forms.

Fireplaces

Fireplace Marble: Due to the many variables that can affect the pattern and/or design, frequently the marble installed on the fireplace will not be identical to the samples. We will make every attempt to come as close to the samples as possible, but cannot be responsible for results which differ from the samples.

Ceramic Floor Tile

Many variables including variegation can affect tile colour, pattern and/or design which mean installed tiles may not be identical to the samples. We will make every attempt to come as close as possible, but cannot be responsible for results which differ from the samples.

Hardwood Flooring

The purchaser is advised that cupping and shrinkage are characteristics of hardwood flooring normal appearing some time after installation, and no warranty is provided by the flooring supplier with respect to such cupping and shrinkage. The vendor agrees to install any hardwood flooring ordered by the purchaser in good and workmanlike manner, but shall not be responsible for, and is hereby released by the purchaser from responsibility and liability for cupping and shrinkage of hardwood flooring.

Shrinking and expanding/cupping of the hardwood floors may occur if the humidity levels in the home are not kept at industry recommendations. If the hardwood floors shrink or expand due to the homeowner not complying with these levels, the hardwood floor will no longer be under warranty and it will be the homeowner's responsibility to repair the flooring.

Stain Colours

Due to many variables that can affect the outcome of a stain colour on wood, staircases, railings, and fireplaces, will not be identical to samples. Factors such as density, age humidity, air temperature, and the uniqueness of each piece of wood can result in wide variations in darkness or lightness. We will make every attempt to come as close to the sample as possible, but cannot be responsible for results which differ from the samples.

Stain on pre-finished hardwood floors will not be an exact match to the stain colours available on stairs, pickets and rails. The purchaser is responsible for choosing the stain on these areas to their satisfaction.

Appliances

All fridge openings are set to builder's standard width. Please advise Décor Centre at time of colour appointment if custom sizing of cabinets is required for any built - in appliances. The purchaser is responsible for costs and fees associated with changes to pre-manufactured kitchens made subsequent to colour appointments.

Kitchen Cabinets

The kitchen you order/purchase will undoubtedly contain slight colour variations. The degree of these variations is virtually impossible to determine before the kitchen is installed in its intended location. The amount of and type of lighting will also affect various highlights in the finish. Note: No two pieces of wood are identical. Variations in colour tone and grain patterns make a perfect colour match virtually impossible. It is generally agreed that these variations add to the natural beauty of a wood kitchen.

Shrinking and expanding of the kitchen cabinets may occur if the humidity levels in the home are not kept at industry recommendations. If the cabinets shrink or expand due to the homeowner not complying with these levels, the cabinets will no longer be under warranty and it will be the homeowner's responsibility to repair the cabinets.

Plaster Mouldings and Medallions

Plaster mouldings will not be installed in open to above areas or areas with 2 storey elements.

Metal Spindles

Due to the characteristics of wrought iron railing production, it is possible for the wrought iron to develop a scale effect. This scale may or may not be totally covered during the painting process. In effect, once the wrought iron picket is painted, the paint may in effect amplify the iron scale depending on the colour chosen. This is a natural effect of wrought iron and should not be construed as a defect or damage.

I hereby acknowledge reading and understanding the above copy and will not hold Highcastle Homes responsible for any issues in relation to above.

Bottom Mount Refrigerator

Lot 9
Riverwalk Kii

PRODUCT MODEL NUMBERS

KRFF507E KRFF607E
KRFF707E

Electrical: A 115 volt, 60 Hz, AC only 15- or 20-amp fused, grounded electrical supply is required. It is recommended that a separate circuit serving only your refrigerator be provided. Use an outlet that cannot be turned off by a switch. Do not use an extension cord.

Water: A cold water supply with water pressure between 35 and 120 psi (241 and 827 kPa) is required to operate the water dispenser and ice maker. If you have questions about your water pressure, call a licensed, qualified plumber.

NOTE: If the water pressure is less than what is required, the flow of water from the water dispenser could decrease or ice cubes could be hollow or irregular shaped.

Reverse Osmosis Water Supply:

IMPORTANT: The pressure of the water supply coming out of a reverse osmosis system going to the water inlet valve of the refrigerator needs to be between 35 and 120 psi (241 and 827 kPa). If a reverse osmosis water filtration system is connected to your cold water supply, the water pressure to the reverse osmosis system needs to be a minimum of 40 to 60 psi (276 to 414 kPa).

PRODUCT DIMENSIONS

Model Size	Height - Overall "A"	Height - Top of Cabinet "B"	Depth - Doors Open 90° "C"	Depth - Drawer Open "D"	Depth - With Handles "E"	Depth - Without Handles "F"	Depth - Cabinet Only "G"	Width - Cabinet "H"	Width - Door Open 90° "I"
26.8	70¾"	68¾"	49"	54¾"	36½"	34"	29½"	35½"	39½"

LOCATION REQUIREMENTS

To ensure proper ventilation for your refrigerator, allow for a ½" (1.25 cm) of space on each side and at the top. Allow for a 1" (2.54 cm) space behind the refrigerator. If your refrigerator has an ice maker, allow extra space at the back for the water line connections. When installing your refrigerator next to a fixed wall, leave a ¾" (9.5 cm) minimum space between the refrigerator and wall to allow the door to swing open.

NOTE: This refrigerator is intended for use in a location where the temperature ranges from a minimum of 55°F (13°C) to a maximum of 110°F (43°C). The preferred room temperature range for optimum performance, which reduces electricity usage and provides superior cooling, is between 60°F (15°C) and 90°F (32°C). It is recommended that you do not install the refrigerator near a heat source, such as an oven or radiator.

KitchenAid®

KitchenAid® 36-Inch 6-Burner Gas
Rangetop, Commercial-Style

4.8

80 Reviews Write a Review

With six burners, this 36-inch gas rangetop has a commercial appeal that will satisfy even the most discriminating cooks. You'll enjoy both power and versatility with two 20K BTU Ultra Power™ Dual-Flame Burners. A 5K BTU simmer/melt burner will help you maintain the low temperatures needed for melting or gentle simmering.

AVAILABLE COLOR OPTIONS

☐ Stainless Steel - KGCU467VSS

FEATURES

Commercial-Style Design with Bold, Heavy-Duty Look and Robust, Die-Cast Black Control Knobs

Provides you with the look and performance that comes from professional, restaurant-quality appliances.

Two 20K BTU Ultra Power™ Dual-Flame Burners

Our most powerful and versatile burners give you two levels of gas flame. At full power, each burner can generate up to 20,000 BTUs for searing and stir-frying.

Three 15K BTU Professional Burners

Give you the power to quickly boil water, perform high-heat cooking techniques, and get restaurant-quality results at both high and low temperatures.

Additional Features

5K BTU Simmer/Melt Burner

Allows you to keep your delicate sauces and gravies warm without scorching and at its lowest setting it can be used for melting.

LP Conversion Kit Included

Allows you to convert the cooktop so it can be used with LP gas.

Continuous Surface with Heavy-Duty Grates

Make it easy to move cookware from one burner to another without having to lift them. The durable cast-iron grates add to the commercial appeal.

PRODUCT MODEL NUMBERS

KGCU407V	KGCU482V
KGCU462V	KGCU483V
KGCU463V	KGCU484V
KGCU467V	

Type of Gas

Natural Gas:

This cooktop is factory-set for use with Natural gas. To convert to LP gas, see the Gas Conversion instructions provided in the package containing literature. The model/serial rating plate located on the left underside of the cooktop burner base has information on the types of gas that can be used. If the types of gas listed do not include the type of gas available, check with the local gas supplier.

LP Gas conversion:

Conversion must be done by a qualified service technician. No attempt shall be made to convert the cooktop from the gas specified on the model/serial rating plate for use with a different gas without consulting the serving gas supplier. To convert to LP gas, use the LP gas conversion kit provided with the cooktop and see the "Gas Conversions" section.

Gas Supply Line

- Provide a gas supply line of $\frac{3}{4}$ " (1.9 cm) rigid pipe to the cooktop location. A smaller size pipe on longer runs may result in insufficient gas supply. With LP gas, piping or tubing size can be $\frac{1}{2}$ " (1.3 cm) minimum. Usually, LP gas suppliers determine the size and materials used in the system.

NOTE: Pipe-joint compounds that resist the action of LP gas must be used. Do not use TEFLON® tape.

Flexible metal appliance connector:

- If local codes permit, a new CSA design-certified, 4 - 5 ft (122 - 152.4 cm) long, $\frac{5}{8}$ " (1.6 cm) or $\frac{3}{4}$ " (1.9 cm) I.D., flexible metal appliance connector may be used for connecting the cooktop to the gas supply line.

- Must include a shutoff valve:

The supply line must be equipped with a manual shutoff valve. This valve should be located in the same room but external to the cooktop enclosure or cabinet. It should be in a location that allows ease of opening and closing. Do not block access to shutoff valve. The valve is for turning on or shutting off gas to the cooktop.

A. Gas supply line
B. Shutoff valve "open" position
C. To cooktop

Electrical:

A 120-volt, 60-Hz, AC-only, 15-amp, fused electrical circuit is required. A time-delay fuse or circuit breaker is also recommended. It is recommended that a separate circuit serving only this cooktop be provided.

†®TEFLON is a registered trademark of E.I. Du Pont De Nemours and Company.

Because Whirlpool Corporation policy includes a continuous commitment to improve our products, we reserve the right to change materials and specifications without notice.

LOCATION REQUIREMENTS

IMPORTANT: Observe all governing codes and ordinances. Do not obstruct flow of combustion and ventilation air.

It is the installer's responsibility to comply with installation clearances specified on the model/serial rating plate. The model/serial rating plate is located on the underside of the cooktop burner base.

It is recommended that a 600 CFM or larger vent hood be installed above the cooktop.

It is not recommended that a microwave hood combination be mounted above the cooktop.

The cooktop should be installed in a location away from strong draft areas, such as windows, doors and strong heating vents or fans.

All openings in the wall or floor where cooktop is to be installed must be sealed.

Cabinet opening dimensions that are shown must be used. Given dimensions are minimum clearances.

IMPORTANT: To avoid damage to your cabinets, check with your builder or cabinet supplier to make sure that the materials used will not discolor, delaminate or sustain other damage.

PRODUCT DIMENSIONS

A. 30" (76.2 cm) cooktop: 29 $\frac{7}{8}$ " (75.9 cm)
36" (91.4 cm) cooktop: 35 $\frac{7}{8}$ " (91.1 cm)
48" (121.9 cm) cooktop: 47 $\frac{7}{8}$ " (121.6 cm)

B. 36" (91.4 cm) long 3 prong grounding-type power supply cord

C. Model/serial rating plate (located on the underside of the cooktop burner base)

D. Island trim or optional backguard

KitchenAid® 30" Combination Wall
Oven with Even-Heat™ True
Convection (lower oven)

5.0

1 Review Write a Review

This 30" Combination Wall Oven with Even-Heat™ True Convection provides consistent heating and even cooking. A unique bow-tie shaped design and convection fan helps ensure there are no burnt edges or under cooked centers. Its upper Microwave Convection Cooking Oven combines a 900 watt microwave with a 1600 watt convection element for high speed cooking. Bold design details are the perfect balance of elegance and functionality.

AVAILABLE COLOR OPTIONS

Stainless Steel - NOCES90ESS

FEATURES

Even-Heat™ True Convection
Oven (lower oven)

Produces flawless results. The unique bow-tie design and convection fan ensure the inside of the oven is heated to, and stays at, the perfect temperature.

Microwave Convection Cooking
(upper oven)

Combines the power of a 900 watt microwave with a 1600 watt convection element to increase the speed of cooking and provide a secondary convection option.

Professionally-Inspired Design
(VBL Light)

Combines a bold blend of professionally-inspired styling with sleek touches for the home. This beautiful built-in wall oven features Satin Textured Handles and the KitchenAid® Badge, a symbol of uncompromised quality.

Additional Features

Temperature Probe

Allows accurate measurement of internal temperatures of meats, poultry, and casseroles without having to open the oven so that food can be cooked perfectly.

5.0 Cu. Ft. Capacity (lower oven)

Provides an extra-large cooking capacity that's unsurpassed among 30" wall ovens and is perfect for large turkeys and roasts. It can even make multiple dishes at once.

SatinGlide™ Roll-Out Extension Rack (lower oven)

Allows easy roll-out for loading and unloading and features an easy-grip handle, giving confidence to cook with large or heavy dishes.

EasyConvect™ Conversion System

Takes guesswork out of convection cooking by ensuring you can get exceptional results when experimenting with new or familiar recipes.

1.4 Cu. Ft. Capacity (upper oven)

Provides spacious cooking capacity while complementing your lower convection oven.

Crispwave™ Microwave Technology and Crisper Pan
(upper oven)

Allows grilling, frying and convection cooking in the microwave. The specially designed crisper pan can be used to brown, crisp, and pan-fry foods.

ELECTRICAL CONNECTION

If codes permit and a separate ground wire is used, it is recommended that a qualified electrical installer determine that the ground path and the wire gauge are in accordance with local codes. Check with a qualified electrical installer if you are not sure the oven is properly grounded.

This oven must be connected to a grounded metal, permanent wiring system.

Be sure that the electrical connection and wire size are adequate and in conformance with the National Electrical Code, ANSI/NFPA 70-latest edition or CSA Standards C22.1-94, Canadian Electrical Code, Part 1 and C22.2 No. O-M91-latest edition, and all local codes and ordinances.

To properly install your oven, you must determine the type of electrical connection you will be using and follow the instructions provided for it here.

- Oven must be connected to the proper electrical voltage and frequency as specified on the model/serial/rating plate. See the following illustration.

A. Model/serial/rating plate

- Models rated from 7.3 to 9.6 kW at 240 volts (5.4 to 7.4 kW at 208 volts) require a separate 40-amp circuit. Models rated at 4.8 kW and below at 240 volts (3.6 kW and below at 208 volts) require a separate 30-amp circuit.
- A circuit breaker is recommended.
- Connect directly to the fused disconnect (or circuit breaker box) through flexible, armored or nonmetallic sheathed, copper cable (with grounding wire). See "Make Electrical Connection" section.
- Flexible conduit from the oven should be connected directly to the junction box.
- Do not cut the conduit. The length of conduit provided is for serviceability of the oven.
- A UL listed or CSA approved conduit connector must be provided.
- If the house has aluminum wiring, follow the procedure below:
 - Connect a section of solid copper wire to the pigtail leads.
 - Connect the aluminum wiring to the added section of copper wire using special connectors and/or tools designed and UL listed for joining copper to aluminum.

Follow the electrical connector manufacturer's recommended procedure. Aluminum/copper connection must conform with local codes and industry accepted wiring practices.

For power requirements, refer to the following table.

Model	Voltage	Amperage (L1)*	Amperage (L2)*	Rating (W)
KOCE507E/KOCE500E	120/240	32	30	8000
KOCE507E/KOCE500E	120/208	30	28	6600

*Amperage values noted above are for information purposes only: the units are rated in watts.

PRODUCT DIMENSIONS

27" (68.6 cm) models

- A. 42⁵/₁₆" (108.0 cm) overall height
- B. 25⁷/₁₆" (64.6 cm) recessed width
- C. 41" (104.1 cm) recessed height
- D. 23¹/₄" (59.1 cm) max. recessed depth
- E. 27" (68.6 cm) overall width
- F. 48" (121.9 cm) flexible conduit length measured from the conduit clamp located at the rear of the oven. Do not remove the conduit clamp.

30" (76.2 cm) models

- A. 42⁵/₁₆" (108.0 cm) overall height
- B. 28⁷/₁₆" (72.3 cm) recessed width
- C. 41" (104.1 cm) recessed height
- D. 23¹/₄" (59.1 cm) max. recessed depth
- E. 30" (76.2 cm) overall width
- F. 48" (121.9 cm) flexible conduit length measured from the conduit clamp located at the rear of the oven. Do not remove the conduit clamp.

Cabinet Dimensions

27" (68.6 cm) models

- A. 27" (68.6 cm) min. cabinet width
- B. 1" (2.5 cm) top of cutout to bottom of upper cabinet door
- C. 19¹/₄" (48.9 cm) bottom of cutout to floor is recommended. 4"-19¹/₄" (10.2-48.9 cm) bottom of cutout to floor is acceptable.
- D. 25¹/₂" (64.8 cm) cutout width
- E. 1¹/₂" (3.8 cm) min. bottom of cutout to top of cabinet door
- F. 41⁵/₁₆" (105 cm)* recommended cutout height
- G. 24" (60.7 cm) cutout depth

30" (76.2 cm) models

- A. 30" (76.2 cm) min. cabinet width
- B. 1" (2.5 cm) top of cutout to bottom
- C. 19¹/₄" (48.9 cm) bottom of cutout to floor is recommended. 4"-19¹/₄" (10.2-48.9 cm) bottom of cutout to floor is acceptable.
- D. 28¹/₂" (72.4 cm) cutout width
- E. 1¹/₂" (3.8 cm) min. bottom of cutout
- F. 41⁵/₁₆" (105 cm)* recommended cutout
- G. 24" (60.7 cm) cutout depth

* NOTE: The cabinet height can be between 41" (104.1 cm) and 41¹/₂" (105.6 cm) for microwave/oven combination.

KitchenAid®46 dBA Dishwasher with ProScrub™ Option

4.1

15 Reviews | Write a Review

This powerful top control dishwasher features the ProScrub™ Option, offering superior cleaning with 40 targeted spray jets. The jets make quick work of the most stubborn messes. It has a Third Level Rack that's perfect for long, flat items and frees additional space on the other racks. It also features the ProWash™ Cycle, which determines the ideal cycle based on load size and soil level.

AVAILABLE COLOR OPTIONS

■ ■ ■
Stainless Steel - KDTE204ESS

FEATURES

ProScrub® Option

Helps eliminate soaking or pre-scrubbing with 40 targeted spray jets that help remove stubborn messes like seared or baked-on foods.

Third Level Rack

Makes it easy to clean hard-to-place items such as spatulas, serving utensils and measuring cups, freeing up space in the lower two racks.

Professionally-Inspired Design

Combines a bold blend of professionally-inspired styling with sleek touches for the home. This beautiful console dishwasher features the KitchenAid® Badge, a symbol of uncompromised quality.

Additional Features

ProWash™ Cycle

Determines the ideal cycle for washing dishes based on soil level and then makes real-time adjustments to achieve the best cleaning performance.

Fold-Down Tines in Lower Rack

Can be adjusted in one of three positions so water can clean inside deep or wide dishes.

Fold-Down Shelf with Stemware holder

Provides extra room in the upper rack that's perfect for additional cups, wine glasses, or longer items like utensils and spatulas.

Filter Based Wash System

Provides exceptionally quiet and efficient wash performance with stainless steel wash arms that optimize water pressure to key areas of the dishwasher for exceptional cleaning.

Heat Dry Option

Engages a recessed heating element during the dry cycle to ensure dry dishes.

SatinGlide® Max Rails (Upper Rack)

Creates a smooth, premium feeling when pulling out the upper rack, particularly with heavy loads.

Express Wash Cycle

Quickly and effortlessly handles the heaviest soils, even stubborn baked and seared-on messes in less time.

Sani-Rinse Option

Heats the final rinse water to 155°F, eliminating 99.999% of food soil bacteria.
