Click Here to View Features

LP Converter orifices - PRD ranges order (PALPKITHC). All Gas ranges are factory (NG) Natural Gas. Factory (LP) Liquid Propane ordered separately. Black Knob Kit (KNOBBLKHC) or Blue Knob Kit (KNOBBLUHC) ordered separately.

1) All height, width and depth dimensions are shown in inches. 2) Oven doors should be removed for doorway clearance. 3) 1-year limited warranty for parts and labor. For complete details, refer to your Care & Use Manual. *Please refer to installation instructions prior to making cutout. **You must install your professional range with the back guards listed above. They are order separately - except for the 30" range, which comes standard with a 6" backguard.

Thermador's "PH", "HN", and "VCI" series wall hoods have been tested to be the correct ventilation product for this range-top. For high output gas ranges or cooktops (60,000 BTU/hr or greater), the minimum rate of 1 CFM of ventilation per 100 BTU/hr is recommended. Additional CFM may be required for griddles, grills, and longer duct runs. For island applications, it is recommended to use a hood width that exceeds the width of the cooktop by 6" (overlapping the cooktop by 3" on each end). Check the Professional Ventilation section for options.

Ranges and cooktops are CGA and AGA approved.
