## DESCRIPTION

## 36" Fully Integrated Premium Plus Refrigerator/Freezer

Show off the materials and design of your custom kitchen to the fullest with the stylish fully integrated HCB 2060. The new 36" single door model features strong hinges for a convenient closing of doors as well as LED lighting and elegant GlassLine shelving including door storage of gallon containers. The two BioFresh drawers are individually usable as HydroSafes with high humidity or as DrySafes with low humidity to enable versatile storage. In this way the ideal climate is provided for all varieties of food.

An automatic IceMaker featuring the most technically advanced water filter provides an ample supply of perfect ice cubes.

## German Engineering and European Design Equals Top Quality

The name Liebherr symbolizes innovation, skill and drive. Recognized as a specialist in refrigeration and freezer technology worldwide, Liebherr consistently introduces new solutions for freshness. The combination of trendsetting materials and classic lines offer a distinct design that gives the products their unique identity. It becomes a tangible expression of the superior quality expected in a Liebherr appliance.

## Quality Standards

Since the mid 1990's, Liebherr domestic appliances have been produced under the highest international quality standard - ISO 9001. Now, their production sites have achieved the certificate of compliance with the international environmental management standard - ISO 14001. Environmental responsibility and initiatives are an inherent part of Liebherr corporate culture.

## 30" Stainless Steel Microwave Trim Kit

### INSTALLATION

1. Unscrew the 4 screws holding the 2 pieces of wood in place, and retain the screws.
2. Screw the 2 pieces of wood onto the base of the cabinet. The wooden strips should touch the inside of the front of the MWTK-76, and be positioned with the centre of the wooden strips ( $18\frac{17}{64}" = 46.4\text{cm}$ ) apart.
3. Being careful not to scratch the microwave door, lift the microwave onto the wooden strips, and move it back about 2 inches.
4. Place the MWTK-76 into position. Use the 4 screws and screw them through the flanges into the side gables.
5. Pull the microwave forward, and align the front of the microwave with the front of the MWTK-76.
6. To stop the microwave from sliding backwards whilst opening it, it might be necessary to attach a piece of wood behind the feet of the microwave, on the wooden supports.
7. Air must be able to flow from the microwave upwards and into the room, or roof space. Failure to comply will void the manufacturer's warranty on the microwave oven.

**24" FULLY INTEGRATED DISHWASHER**

#### Hoses and Connections

\* Install the dishwasher so as to allow ease of access to the electrical and hydraulic connections through the adjacent unit. These connections must never be behind the dishwasher.

The inlet and drain hoses can be pointed in all directions. make sure that they are not bent, crushed or too tight. Tighten the ring nut after pointing the hoses in the required direction.

A = 1200 mm / 47"  
B = 1270 mm / 50"  
C = 1270 mm / 50"  
D = min. 400 mm / 16"

#### Hoses and Connections

##### \*NOTE\*

\* Installing the dishwasher in a narrow space may bend or crush the connections (hoses, power cord). Take great care in order to reduce the possibility of damaging the connections when installing or removing the appliance.

\* A through hole with a diameter of at least 13 cm (5") is required to pass the hoses and power cord. Make sure there are no rough edges that could damage the power cord or hoses. If the dishwasher is installed in a metal unit protect the edge of the through hole for the hoses and power cord with a gasket. Do not use extension cords when making the electrical connection as these do not guarantee safety.
