**Subject:** Re: Important - RE: Lot 52-3 tub/tile issues

Hello to all,

Sorry for the delay in reply...our internet service in "the country" is more than a little delayed!!!

I apologize for the confusion - I thought this was an alternate 4 bedroom plan hence I added the tub deck and skirt. This is not the case and there is a regular bath tub and a standing shower adjacent to that in the master ensuite, therefore the wall tile should be the 8"x 10" to match the 13" x 13" floor tile.

Thank you all for your patience...have a great weekend and Happy Mother's Day to those ladies that have earned the title!!!

Steff
