## KitchenAid Model: KVWB606HBS

36" Wall-Mount, 3-Speed Canopy Hood

Color  Black Stainless Steel with PrintShield™ Finish

### Product Description

The power of this 36-inch vent hood effectively vents most cooking surfaces. One of the premium features of this vent hood is auto speed sensing that adjusts fan speed to help protect cabinets from potentially harmful steam, grease, and odors. The sharp, glass-touch display showcases easy-to-use touch controls.

FOR THE WAY IT'S MADE™

## 30" (72.6 cm) and 36" (91.4 cm) Wall-Mount Canopy Range Hood

### PRODUCT MODEL NUMBERS

KAWB600D

KVWB600D

**Electrical:** A 120 volt, 60 Hz., AC only, 15-amp, fused electrical circuit is required.

### VENTING METHODS

This canopy range hood is factory set for venting through the roof or through the wall.

A 6" (15.2 cm) round vent system is needed for installation (not included). The hood exhaust opening is 6" (15.2 cm) round.

**NOTE:** Flexible vent is not recommended. Flexible vent creates back pressure and air turbulence that greatly reduce performance.

Vent system can terminate either through the roof or wall. To vent through a wall, a 90° elbow is needed.

### Rear Discharge

A 90° elbow may be installed immediately above the hood.

### For Non-Vented (Recirculating) Installations

If it is not possible to vent cooking fumes and vapors to the outside, the hood can be used in the non-vented (recirculating) version, using a Recirculation Kit (which includes charcoal filters and a deflector). To order, see the "Assistance or Service" section.

#### Roof Venting

A. Roof cap  
B. 6" (15.2 cm) round vent

#### Wall Venting

A. Wall cap  
B. 6" (15.2 cm) round vent

#### Non-Vented (Recirculating)

A. Deflector  
B. 6" (15.2 cm) round vent

### Calculating Vent System Length

To calculate the length of the system you need, add the equivalent feet (meters) for each vent piece used in the system.

#### Vent System

Vent Piece	6" (15.2 cm) Round	
45° elbow	2.5 ft (0.8 m)	
90° elbow	5.0 ft (1.5 m)	

Maximum equivalent vent length is 35 ft (10.7 m).

### Example Vent System

The following example falls within the maximum recommended vent length of 35 ft (10.7 m).

1 - 90° elbow	= 5.0 ft (1.5 m)
1 - wall cap	= 0.0 ft (0.0 m)
8 ft (2.4 m) straight	= 8.0 ft (2.4 m)
Length of system	= 13.0 ft (3.9 m)

### PRODUCT DIMENSIONS

\* For non-vented (recirculating) installations

\*\* For vented installations

This sketch is provided solely for reference to those items noted on the accompanying "Upgrades/Extras". All other details, dimensions & layouts are for illustrative purposes only and may not be applicable to the Purchaser's Model.

# CABINET DIMENSIONS

\*For non-vented (recirculating) installations

## IMPORTANT:

- Minimum distance "X": 24" (61.0 cm) from electric cooking surface.
- Minimum distance "X": 27" (68.6 cm) from gas cooking surfaces.
- Suggested maximum distance "X": 36" (91.4 cm)

The chimneys can be adjusted for different ceiling heights. See the following chart.

Vented Installations		
	Min. ceiling height	Max. ceiling height
Electric cooking surface	7' 1" (2.16 m)	9' 2" (2.79 m)
Gas cooking surface	7' 4" (2.23 m)	9' 2" (2.79 m)
Non-vented (recirculating) Installations		
	Min. ceiling height	Max. ceiling height
Electric cooking surface	7' 1" (2.16 m)	9' 6" (2.9 m)
Gas cooking surface	7' 4" (2.23 m)	9' 6" (2.9 m)

**\*NOTE:** The range hood chimneys are adjustable and designed to meet varying ceiling or soffit heights depending on the distance "X" between the bottom of the range hood and the cooking surface. For higher ceilings, a Chimney Extension Kit is available from your dealer or an authorized parts distributor. The chimney extension replaces the chimney shipped with the range hood. To order, see the "Assistance or Service" section.

This sketch is provided solely for reference to those items noted on the accompanying "Upgrades/Extras". All other details, dimensions & layouts are for illustrative purposes only and may not be applicable to the Purchaser's Model.

# KitchenAid® Commercial Style Gas Cooktop

FOR THE WAY IT'S MADE.®

## PRODUCT MODEL NUMBERS

KGCCU407V      KGCU482V  
 KGCU402V      KGCU483V  
 KGCU463V      KGCU484V  
 KGCU467V

### Type of Gas

Natural Gas:

This cooktop is factory-set for use with Natural gas. To convert to LP gas, see the Gas Conversion instructions provided in the package containing literature. The model/serial rating plate located on the left underside of the cooktop burner base has information on the types of gas that can be used. If the types of gas listed do not include the type of gas available, check with the local gas supplier.

### LP Gas conversion:

Conversion must be done by a qualified service technician. No attempt shall be made to convert the cooktop from the gas specified on the model/serial rating plate for use with a different gas without consulting the serving gas supplier. To convert to LP gas, use the LP gas conversion kit provided with the cooktop and see the "Gas Conversions" section.

### Gas Supply Line

- Provide a gas supply line of 3/4" (1.9 cm) rigid pipe to the cooktop location. A smaller size pipe on longer runs may result in insufficient gas supply. With LP gas, piping or tubing size can be 1/2" (1.3 cm) minimum. Usually, LP gas suppliers determine the size and materials used in the system.

**NOTE:** Pipe-joint compounds that resist the action of LP gas must be used. Do not use TEFLON® tape.

### Flexible metal appliance connector:

- If local codes permit, a new CSA design-certified, 4 - 5 ft (122 - 152.4 cm) long, 3/8" (1.6 cm) or 1/2" (1.9 cm) I.D., flexible metal appliance connector may be used for connecting the cooktop to the gas supply line.

- Must include a shutoff valve:

The supply line must be equipped with a manual shutoff valve. This valve should be located in the same room but external to the cooktop enclosure or cabinet. It should be in a location that allows ease of opening and closing. Do not block access to shutoff valve. The valve is for turning on or shutting off gas to the cooktop.

A. Gas supply line  
 B. Shutoff valve "open" position  
 C. To cooktop

### Electrical:

A 120-volt, 60-Hz, AC-only, 15-amp, fused electrical circuit is required. A time-delay fuse or circuit breaker is also recommended. It is recommended that a separate circuit serving only this cooktop be provided.

®TEFLON is a registered trademark of E. I. Du Pont De Nemours and Company.

## LOCATION REQUIREMENTS

**IMPORTANT:** Observe all governing codes and ordinances. Do not obstruct flow of combustion and ventilation air.

It is the installer's responsibility to comply with installation clearances specified on the model/serial rating plate. The model/serial rating plate is located on the underside of the cooktop burner base.

It is recommended that a 600 CFM or larger vent hood be installed above the cooktop.

It is not recommended that a microwave hood combination be mounted above the cooktop.

The cooktop should be installed in a location away from strong draft areas, such as windows, doors and strong heating vents or fans.

All openings in the wall or floor where cooktop is to be installed must be sealed.

Cabinet opening dimensions that are shown must be used. Given dimensions are minimum clearances.

**IMPORTANT:** To avoid damage to your cabinets, check with your builder or cabinet supplier to make sure that the materials used will not discolor, delaminate or sustain other damage.

## PRODUCT DIMENSIONS

- A. 30" (76.2 cm) cooktop: 29 1/2" (75.9 cm)

## KitchenAid Model: KOCE500EBS

30" Combination Wall Oven with Even-Heat™ True Convection (Lower Oven)

Color  Black Stainless Steel with PrintShield™ Finish

### Product Description

This 30" Combination Wall Oven with Even-Heat™ True Convection provides consistent heating and even cooking. A unique bow-tie shaped design and convection fan helps ensure there are no burnt edges or undercooked centers. Its upper Microwave Convection Cooking Oven combines a 900 watt microwave with a 1600 watt convection element for high speed cooking. Bold design details are the perfect balance of elegance and functionality.

## ELECTRICAL CONNECTION

If codes permit and a separate ground wire is used, it is recommended that a qualified electrical installer determine that the ground path and the wire gauge are in accordance with local codes. Check with a qualified electrical installer if you are not sure the oven is properly grounded.

This oven must be connected to a grounded metal, permanent wiring system.

Be sure that the electrical connection and wire size are adequate and in conformance with the National Electrical Code, ANSI/NFPA 70-latest edition or CSA Standards C22.1-94, Canadian Electrical Code, Part 1 and C22.2 No. 0-M91-latest edition, and all local codes and ordinances.

To properly install your oven, you must determine the type of electrical connection you will be using and follow the instructions provided for it here.

- Oven must be connected to the proper electrical voltage and frequency as specified on the model/serial/rating plate. See the following illustration.

A. Model/serial/rating plate

- Models rated from 7.3 to 9.6 kW at 240 volts (5.4 to 7.4 kW at 208 volts) require a separate 40-amp circuit. Models rated at 4.8 kW and below at 240 volts (3.8 kW and below at 208 volts) require a separate 30-amp circuit.
- A circuit breaker is recommended.
- Connect directly to the fused disconnect (or circuit breaker box) through flexible, armored or nonmetallic sheathed, copper cable (with grounding wire). See "Make Electrical Connection" section.
- Flexible conduit from the oven should be connected directly to the junction box.
- Do not cut the conduit. The length of conduit provided is for serviceability of the oven.
- A UL listed or CSA approved conduit connector must be provided.
- If the house has aluminum wiring, follow the procedure below:
  - Connect a section of solid copper wire to the pigtail leads.
  - Connect the aluminum wiring to the added section of copper wire using special connectors and/or tools designed and UL listed for joining copper to aluminum.

Follow the electrical connector manufacturer's recommended procedure. Aluminum/copper connection must conform with local codes and industry accepted wiring practices.

For power requirements, refer to the following table.

Model	Voltage	Amperage (L1)*	Amperage (L2)*	Rating (W)
KOCE507E/KOCE500E	120/240	32	30	8000
KOCE507E/KOCE500E	120/208	30	28	6600

\*Amperage values noted above are for information purposes only; the units are rated in watts.

## PRODUCT DIMENSIONS

- 27" (68.6 cm) models**
- A. 42 1/4" (108.0 cm) overall height
  - B. 25 1/4" (64.6 cm) recessed width
  - C. 41" (104.1 cm) recessed height
  - D. 23 1/4" (59.1 cm) max. recessed depth
  - E. 27" (68.6 cm) overall width
  - F. 48" (121.9 cm) flexible conduit length measured from the conduit clamp located at the rear of the oven. Do not remove the conduit clamp.
- 30" (76.2 cm) models**
- A. 42 1/4" (108.0 cm) overall height
  - B. 28 1/4" (72.3 cm) recessed width
  - C. 41" (104.1 cm) recessed height
  - D. 23 1/4" (59.1 cm) max. recessed depth
  - E. 30" (76.2 cm) overall width
  - F. 48" (121.9 cm) flexible conduit length measured from the conduit clamp located at the rear of the oven. Do not remove the conduit clamp.

## Cabinet Dimensions

- 27" (68.6 cm) models**
- A. 27" (68.6 cm) min. cabinet width
  - B. 1" (2.5 cm) top of cutout to bottom of upper cabinet door
  - C. 19 1/4" (48.9 cm) bottom of cutout to floor is recommended. 4"-19 1/4" (10.2-48.9 cm) bottom of cutout to floor is acceptable.
  - D. 25 1/4" (64.6 cm) cutout width
  - E. 1 1/2" (3.8 cm) min. bottom of cutout to top of cabinet door
  - F. 41 1/4" (105 cm) recommended cutout height
  - G. 24" (60.7 cm) cutout depth
- 30" (76.2 cm) models**
- A. 30" (76.2 cm) min. cabinet width
  - B. 1" (2.5 cm) top of cutout to bottom
  - C. 19 1/4" (48.9 cm) bottom of cutout to floor is recommended. 4"-19 1/4" (10.2-48.9 cm) bottom of cutout to floor is acceptable.
  - D. 28 1/4" (72.4 cm) cutout width
  - E. 1 1/2" (3.8 cm) min. bottom of cutout
  - F. 41 1/4" (105 cm) recommended cutout
  - G. 24" (60.7 cm) cutout depth

\* NOTE: The cabinet height can be between 41" (104.1 cm) and 41 1/4" (105.6 cm) for microwave/oven combination.

## KitchenAid Model: KBSD608EBS

29.5 cu. ft 48-Inch Width Built-In Side by Side Refrigerator with PrintShield™ Finish

**Color**  Black Stainless Steel with PrintShield™ Finish

### Product Description

This versatile 29.5 Cu. ft built-in refrigerator features the ExtendFresh™ Plus Temperature Management System, which maintains the perfect temperature for fresh ingredients. The Produce Preserver extends freshness by neutralizing the over-ripening effects of ethylene emitted by certain fruits and vegetables. It also features PrintShield™ Finish, a fingerprint resistant finish, which protects against smudges and enhances the look of the refrigerator.

~~KBSD612E~~ ~~KBSD618E~~

**Electrical:** A 115 volt, 60 Hz., AC only, 15- or 20-amp fused, grounded electrical supply is required. It is recommended that a separate circuit serving only your refrigerator be provided. Use an outlet that cannot be turned off by a switch. Do not use an extension cord.

**Water Pressure:** A cold water supply with water pressure between 30 and 120 psi (207 and 827 kPa) is required to operate the water dispenser and ice maker. If you have questions about your water pressure, call a licensed, qualified plumber.

**Reverse Osmosis Water Supply:**

**IMPORTANT:** The pressure of the water supply coming out of a reverse osmosis system going to the water inlet valve of the refrigerator needs to be between 30 and 120 psi (207 and 827 kPa).

**IMPORTANT:**

- It is recommended that you do not install the refrigerator near an oven, radiator, or other heat source.
- Do not install in a location where the temperature will fall below 55°F (13°C).
- Floor must support the refrigerator weight, more than 600 lbs (272 kg), door panels and contents of the refrigerator.

**PRODUCT DIMENSIONS**

- The depth from the front of the top grille to the back of the refrigerator cabinet is 5 5/8" (64.5 cm).
- The power cord is 84" (213 cm) long.
- Height dimensions are shown with leveling legs extended 1/4" (3 mm) below the rollers.

**SIDE VIEW**

\*When leveling legs are fully extended to 1 1/4" (3.2 cm) below rollers, add 1 1/4" (2.9 cm) to the height dimensions.

**OPENING DIMENSIONS**

To avoid tipping during use, the solid soffit must be within 1" (2.5 cm) maximum above the refrigerator. If the solid soffit is higher than 1" (2.5 cm) or one is not available, then the refrigerator must be braced. If the anti-tip boards are needed, they must be attached to the rear wall studs 80" to 90" (203 cm to 229 cm) above the floor. See "Install Anti-Tip Boards" for more information.

**NOTE:** A clearance of 1/2" (1.3 cm) above the top grille must be maintained in order for the top grille to be removed.

Model	Width A (as shown above)	Dimension B (as shown above)
36	35 1/2" to 35 3/4" (90.2 cm to 90.8 cm)	4" (10.2 cm)
42	41 1/2" to 41 3/4" (105.4 cm to 106.1 cm)	7 1/2" (19.1 cm)
48	47 1/2" to 47 3/4" (120.2 cm to 121.3 cm)	13 1/2" (34.3 cm)

**NOTE:** Flooring under refrigerator must be at same level as the room. Face of cabinet must be plumb.

Because Whirlpool Corporation policy includes a continuous commitment to improve our products, we reserve the right to change materials and specifications without notice.

# TOP VIEW

Model	Width A
36	35" (88.9 cm)
42	41" (104.1 cm)
48	47" (119.4 cm)

# FRONT VIEW

- Width dimensions were measured from trim edge to trim edge.
- Height dimensions are shown with leveling legs extended 1/8" (3 mm) below the rollers.

Model	Width A (Trim edge to trim edge)
36	36 1/2" (92.3 cm)
42	42 1/2" (107.5 cm)
48	48 1/2" (122.8 cm)

\*When leveling legs are fully extended to 1 1/4" (3.2 cm) below rollers, add 1 1/8" (2.9 cm) to the height dimensions.

# DOOR SWING DIMENSIONS

The location must permit both doors to open to a minimum of 90°. Allow 5" (12.7 cm) minimum space between the side of the refrigerator and a corner wall.  
**NOTE:** More clearance may be required if you are using overlay panels, custom handles, or extended handles on a Classic model.  
 To adjust the door swings, see "Adjust Doors."
