Whirlpool Gold® Series Dishwasher with Sensor Cycle

From baked-on casserole dishes to drinking glasses, the Sensor cycle has you covered. Not only does it automatically select the right wash and dry settings for your load, it'll even clean tough soils 35% better¹* while using just the right amount of time, energy and water, helping you have more time to do what you love. And thanks to specialized options, breakfast bowls and coffee cups don't need to sit in the sink until after lunch or dinner. The Top Rack Wash option saves you time and energy by washing dishes in the top rack, so you don't have to wait for a full load to wash a few items. * Compared to previous wash systems.

why you'll love it...

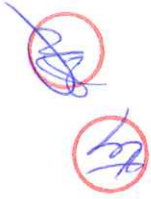

Sensor Cycle

From baked-on casserole dishes to drinking glasses, the Sensor cycle has you covered. It automatically selects the right wash and dry settings for your load by using two separate sensors to measure temperature, soil level and load size once during the prewash and once during the wash

----------	----------	----------------	-------------------	----------------------

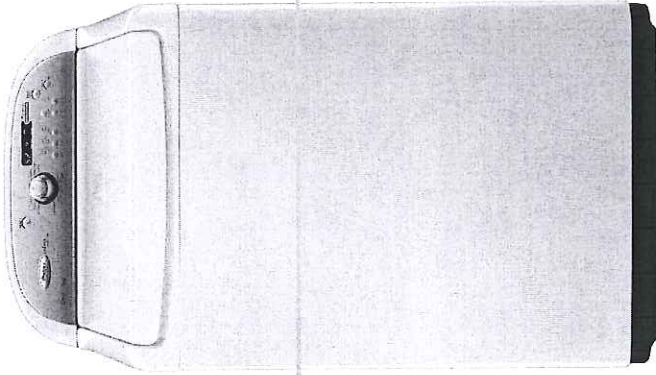

Whirlpool Gold® 6.2 cu. ft. Capacity Electric Range with TimeSavor™ Plus True Convection Cooking System

Create delicious family meals with the help of a capacity range available at 6.2 cu. ft. The TimeSavor™ Plus true convection cooking system uses a rear fan and a third heating element in the back of the oven, allowing you to roast up to 30% faster.* Using convection cooking is easy with Convection Conversion. It automatically converts standard temperatures to the convection equivalent. Now you can save time when single-rack baking with 25% faster** preheating. Rapid Preheat uses all of the elements and a rear fan to heat the oven quickly and efficiently. Our most energy-efficient self-cleaning cycle available² offers quick, easy and odour-free oven cleaning with AquaLift® self-clean technology. The AccuBake® temperature management system delivers uniform baking results every time¹. A built-in sensor monitors oven temperature and controls the cooking elements. *Versus a conventional oven with a 12–14 lb turkey. #**Based on single-rack baking with Rapid Preheat option versus three-rack without option.

----------	----------	----------------	-------------------	----------------------

Whirlpool® Cabrio® 7.6 cu. Ft Platinum High Efficiency Electric Dryer with Advanced Moisture Sensing

Match this HE dryer with a Cabrio® Platinum HE washer. Advanced Moisture Sensing in this 7.6 cu. ft. dryer uses three built-in sensors to monitor moisture levels and stop the drying when everything is dry. The EcoBoost™ option saves even more energy by using a portion of the dryer's dual heating elements and extending cycle time. An Eco Monitor on the console lets you see the eco-friendliness of each cycle and option as choose them. Plus, specialty cycles like sanitize, active wear and sheets are tailored to your drying needs.

why you'll love it...

Advanced Moisture Sensing System

Three built-in sensors read incoming air temperature and outgoing air temperature while monitoring moisture levels inside the dryer. This helps the drying cycle end when everything is perfectly dry, saving time and energy and helping to prevent overdrying.
