SC(B)319 I ALITO Collection

Wall Mount

Our most popular and best-selling model, the SC300, has been redesigned to have the bright dual-setting LED lights on the front of the range hood to better illuminate your cooking surface where you need it most. The relocation of the lights will not only improve illumination over your cooktop it also helps hide any imperfections in your backsplash finish. The lighting being in the front of the hood will help the tortured perfectionists out there to avoid any reminders that even the most skilled tilers cannot always avoid having slight imperfections. This small change may seem superficial but will make a huge difference for all involved and can help keep your project under budget. As they say in the business...."it's all in the finishing!"

Green Features

3 Speed Push Button Control Panel

Long-Lasting LED Lights

Time-Delay OFF Feature

Grease Cup
