Dear Mr. Kochar:

**RE: Application Made Under Ontario Regulation 153/06 to Construct New Dwelling within Regulation Limit of Wetland
114 Chandel Private, City of Ottawa (Huntley)**

Enclosed is your Mississippi Valley Conservation Authority (MVCA) - *Development, Interference with Wetlands and Alterations to Shorelines and Watercourses* permit for the subject work, at the above noted location. Please sign a copy of Page 4 provided with the permit and return it to MVCA to indicate that you have read and accept the conditions of the permit, and acknowledge that the details of the proposal, as described in the permit and schedules, are accurate and complete.

This permit comes into effect immediately and expires on May 9, 2025.

The MVCA Board of Directors requires that all permissions granted by the MVCA be posted. We have included the posting with this permit, to be posted on-site in a visible location.

Pursuant to Section 28 of the Conservation Authorities Act (R.S.O. 1990, as amended) any or all of the conditions of the Permit may be appealed to the Regulations Committee of the Conservation Authority within 30 days of the date of issuance of this permit and prior to commencement of the work approved under this permit.

I trust this is clear. If you have any questions or concerns, please contact the undersigned at extension 259.

Sincerely,

A handwritten signature in blue ink, appearing to read 'B Moy', enclosed within a hand-drawn oval.

PERMIT
DEVELOPMENT, INTERFERENCE WITH WETLANDS AND ALTERATIONS TO
SHORELINES AND WATERCOURSES
ONTARIO REGULATION 153/06

File: W23/060

May 9, 2023

Cuckoo Kochar
18A Bentley Avenue
Nepean, ON
K2E 6T8

Dear Mr. Kochar:

RE: Application Made Under Ontario Regulation 153/06 to Construct New Dwelling within Regulation Limit of Wetland
114 Chandel Private, City of Ottawa (Huntley)

The Mississippi Valley Conservation Authority (MVCA) is in receipt of an application to construct a new residential dwelling. Our mapping indicates that the proposed work is located within the Regulation Limit of a wetland. According to the drawings submitted with this application, the proposed development will include a new dwelling, attached garage, driveway and clarifier tank for sewage. The proposed dwelling will be located approximately 22 metres from the wetland boundary within a pre-approved building lot. The above-mentioned works were reviewed and accepted during the Plan of Subdivision.

For any application, MVCA is required to assess an application based on the *Conservation Authorities Act*, the regulations in force under that act, and our Board-approved policies under those regulations. These requirements apply for any project that involves:

- Straightening, changing, diverting, or interfering in any way with the existing channel of a watercourse.
- Interfering in any way with a wetland.
- Development within the regulated area that may affect the control of flooding, erosion, pollution, or the conservation of land.

This proposal meets the definition of development, as defined under Section 28 of the *Conservation Authorities Act*, within a regulated area that may affect or interfere with a wetland. There will be no clearing or fill placement within the boundaries of the wetland, all works will be completed within a pre-approved building envelope. Accordingly, the impacts to the wetland have been addressed and appropriate mitigation measures have been proposed to address the MVCA's concerns.

PERMIT

DEVELOPMENT, INTERFERENCE WITH WETLANDS AND ALTERATIONS TO SHORELINES AND WATERCOURSES

ONTARIO REGULATION 153/06

Therefore, the Mississippi Valley Conservation Authority hereby grants you permission to undertake the proposal outlined in application W23/060, as shown on Schedule "A" (2 sheets, 1 drawings) attached. Work according to this permit may commence immediately, to be completed by May 9, 2025, subject to the following conditions:

1. The permit holder shall maintain a copy of this permit on site and shall ensure that all individuals involved in carrying out the work are aware of the permit and its conditions.
2. The project shall be carried out as per the plans and reports (Schedule "A") submitted in support of this application as they may be amended through conditions of this permit.
3. No fill other than that shown in Schedule "A", including material excavated for the dwelling, shall be placed within the regulation limit of the wetland.
4. Site disturbance shall be limited to the area required for the dwelling construction. Other than activities allowed under this permit, there shall be no filling nor encroachment of construction equipment or materials into adjacent natural areas, streams, wetlands.
5. A light duty silt fence barrier, installed to OPSD 219.110 specifications, shall be installed between the exposed soil areas and the wetland.
6. It will be the proponent's responsibility to ensure that the sedimentation control measures are inspected daily and that any maintenance, including the removal of accumulated sediment, is carried out as required.
7. All disturbed areas shall be seeded, sodded or stabilized in some other manner acceptable to Authority staff as soon as possible and prior to the expiry of this permit. Once the exposed areas are stabilized, the sediment controls are to be removed from the site.
8. All work, equipment maintenance and refuelling shall be carried out in such a manner that will prevent the release of construction and excavation wastes, overburden soil and any other substances deleterious to aquatic life into the wetland.
9. Natural drainage patterns on the site shall not be substantially altered, such that drainage to the wetland is impacted.

Any deviation from the approved criteria without prior written approval from the Mississippi Valley Conservation Authority will constitute a violation of the approved permit. This could result in the permit being revoked in accordance with Section 8 of Ontario Regulation 153/06, which states:

8 (1) The Authority may cancel a permission if it is of the opinion that the conditions of the permission have not been met.

PERMIT

DEVELOPMENT, INTERFERENCE WITH WETLANDS AND ALTERATIONS TO
SHORELINES AND WATERCOURSES
ONTARIO REGULATION 153/06

Please be reminded that this permission does not relieve you of your obligation to secure any other necessary approval.

PERMIT

DEVELOPMENT, INTERFERENCE WITH WETLANDS AND ALTERATIONS TO SHORELINES AND WATERCOURSES

ONTARIO REGULATION 153/06

By this letter, the Mississippi Valley Conservation Authority assumes no responsibility or liability for any flood, erosion, or slope failure damage which may occur either to your property or the structures on it or if any activity undertaken by you adversely affects the property or interests of adjacent landowners. This letter does not relieve you of the necessity or responsibility for obtaining approval from the municipality or for acquiring any other federal or provincial permits (including, but not limited to, *Ontario Planning Act* zoning, site plan approvals and/or *Building Code Act* permits) or compliance with the *Endangered Species Act*. This permission does not give you approval to conduct work on land that you do not own.

NOTE: The information on this form is being collected for the purpose of administering a regulation made pursuant to Section 28, *Conservation Authorities Act*, R.S.O. 1990, Chapter 27. This application and supporting documents and any other documentation received relating to this application, may be released, in whole or in part, to other persons in accordance with the *Municipal Freedom of Information and Protection of Privacy Act*, R.S.O. 1990c. M.56, as amended.

A handwritten signature in blue ink, appearing to read "Matt Craig".

Matt Craig
Manager, Planning and Regulations

Dated at Carleton Place, Ontario, this 9 day of May, 2023.

By signing this permit, and returning a copy to the Mississippi Valley Conservation Authority, I, as the owner or agent of the owner, agree to the conditions herein.
