Please Complete the following items:

Deficiency Number	Issue		Appt. Date/Time	Notes
4949	Throughout- An anomaly was noted on the floors at the fire wall separations on the 1st, 2nd and 3rd floors of building 41. The floor seemed to have a gradual difference in elevation and a spongy feel beneath existing carpet in these areas which poses a tripping hazard. Good practice would have the floor system adequately secured as required under general framing requirements in section 9.23.2.1. **No areas of spongy floor were found however there is a trip hazard in the form of a slightly raised joint in the subfloor on the north side of the doorway on the second & third floors. The main floor was fine.**
