Customer Agrees and Accepts the following conditions: 1. The Drawing is a representation only and the installed cabinetry may vary slightly in product size, measurements, handle appearance and location and other details. Although Quality Tops & Kitchens Ltd. (QTK) does its best to manufacture exactly what is shown here outside factors may prevent that and some variance is to be expected and accepted by the customer. 2. These drawings represent the intellectual property of QTK and as such the customer understands and accepts that all deposits given by the customer to QTK are non-refundable after QTK has supplied drawings (either physically or electronically) to the customer. If the customer decides to cancel the order after QTK has submitted drawings to the customer, the deposit will then be considered a design fee and no money will be returned to the customer.

## Specifications

### Opening Dimensions

#### FLUSH INSET INSTALLATION

NOTE:  $3\frac{1}{2}"$  (89) finished returns and shaded areas will be visible and should be finished to match cabinetry. Shaded line represents profile of unit with  $3/4"$  (19) panel.

FLUSH INSET WIDTH	W
30" Model	32" (813)
36" Model	38" (965)
42" Model	44" (1118)
48" Model	50" (1270)

Flush inset is available for overlay models only.

Dimensions assume a  $3/4"$  (19) panel thickness.

If two units are installed side by side, refer to page 15 for dual flush inset installations.

# Lot 22 Oak Ridge

## Specifications

### Electrical Requirements

The electrical supply should be located within the shaded area shown in the illustration below. A separate circuit servicing only this appliance is required. A ground fault circuit interrupter (GFCI) is not recommended and may cause interruption of operation.

Installation must comply with all applicable electrical codes.

#### ELECTRICAL REQUIREMENTS

Electrical Supply	115 VAC, 60 Hz
Service	15 amp dedicated circuit
Receptacle	3-prong grounding-type

Electrical supply location

### Plumbing Requirements

The water supply line should be located within the shaded area shown in the illustration below. The water supply line should be connected to the house supply with an easily accessible shut-off valve. Do not use self-piercing valves. The water supply line must not interfere with the installation of the anti-tip brackets.

A reverse osmosis system can be used provided there is constant water pressure of 35–120 psi (2.4–8.3 bar) supplied to the unit at all times. A copper line is not recommended for this application.

Installation must comply with all applicable plumbing codes.

#### PLUMBING REQUIREMENTS

Water Supply	1/4" OD copper, braided stainless steel, or PEX tubing
Pressure	35–120 psi (2.4–8.3 bar)
Excess Line for Connection	36" (914)

Water supply location

# Lot 22 Oak Ridge

## Custom Panels

### Custom Panels

For overlay and flush inset applications, custom door panels must be provided. Handle hardware must also be provided for overlay and flush inset applications. Refer to Panel Requirements below and the charts on the following pages for custom panel dimensions for your specific design application.

**IMPORTANT NOTE:** Do not cover a glass door with a solid panel.

Finish all sides of the custom panels. They may be visible when the door is open or through the window of glass door models.

#### PANEL REQUIREMENTS

WEIGHT PER PANEL	MAX
CL3650R(ID), CL3650RG, CL3650F, CL3050W	75 lb (34 kg)
All Other Models	50 lb (23 kg)
Grille Panel	13 lb (6 kg)
Panel Thickness	$\frac{3}{4}$ " (19)

#### PANEL MOUNTING KIT

The Sub-Zero custom panel mounting kit eliminates the need for the backer and spacer panels and is available through an authorized Sub-Zero dealer. For local dealer information, visit the find a showroom section of our website, [subzero.com](http://subzero.com). The kit consists of mounting cleats, screws, and gauges used to properly position the cleats. The kit is available for all Classic series models except glass door models. Dual installations require two mounting kits.

### ICE AND WATER DISPENSER

For models CL4250SD and CL4850SD, the refrigerator door panel must include a cutout to accommodate the external dispenser. The bezel will accommodate a minimum  $\frac{3}{4}$ " (19) thick panel. Panels thicker than  $\frac{3}{4}$ " (19) must be routed to  $\frac{3}{4}$ " (22) in the dispenser area ( $1\frac{1}{8}$ " (29) including the backer and spacer panels).

Dispenser dimensions

# Lot 22 OakRidge

## Custom Panels

### Flush Inset Panels

The flush inset application is an overlay model with flush inset panels. It is not a separate model.

The flush inset design allows custom panels to be installed flush with adjacent cabinets. Similar to overlay, flush inset panels are typically created by combining a  $\frac{3}{4}$ " (19) custom panel, a .10" (3) spacer panel, and a  $\frac{1}{4}$ " (6) backer panel. Refer to the illustration below.

For flush inset panels thicker than  $\frac{3}{4}$ " (19), a 90° door stop may be required to prevent interference with adjacent cabinets. Refer to the full-scale templates at the end of this guide.

When installing two units side by side, refer to page 15 for dual flush inset installations.

Panel assembly (rear view)

### PANEL OFFSET

The illustrations on the following page provide panel offsets and reveals for Classic series models in a flush inset application. Refer to the chart below for reference to the illustrations.

## 24" Custom Panel Dishwasher

800 Series – Custom Panel SHVM78Z53N

SHVM78Z53N  
Custom Panel

**Patented CrystalDry™ technology transforms moisture into heat to get dishes, including plastics, 60% drier.<sup>1</sup>**

### Features & Benefits

42 dBA: dishwasher runs quietly so your kitchen conversations aren't interrupted.

The Flexible 3rd Rack with fold down sides adds 30% more<sup>2</sup> loading area, perfect for utensils and ramekins.

Touch Control Technology allows for quick cycle programming.

The AquaStop® leak protection system contains leaks through a precisely engineered system. If a leak occurs, the system contains it by shutting down operation and pumping out water. So you have the ultimate peace of mind whether you are away or at home.

General Properties	
Number of wash cycles	6
Number of options	5
dBA	42
Drying system	CrystalDry™ option
