C A F É

DISTINCT BY DESIGN™

CXE22DP4PW2
Matte White with
Brushed Bronze handles

FEATURES & BENEFITS

Enjoy the flexibility of a **Convertible Drawer with Soft Freeze** with settings as low as 23 degrees or as high as 42 degrees, and keep items organized with sliding glass dividers

Relish the bright, uniform light of an **LED light wall** that spans the back wall of the refrigerator, illuminating the fresh food section so every item is easy to find

Effortlessly fill containers with filtered water by simply pressing the **AutoFill** button which uses sensors to dispense the perfect amount every time

A **Humidity Control System** provides an environment for leafy green vegetables to last 2-1/2 times longer than standard vegetables drawers. (*Based on internal testing vs. similar size vegetable drawers with humidity controls from a leading competitor.)

Easily pull out a slim, **full-width tray** to accommodate gourmet pizzas and other frozen, uniquely shaped items

Receive alerts on your smart device whenever your refrigerator's internal temperature dips below normal, thanks to **built-in WiFi connectivity** that helps you keep foods party-platter ready

From produce to packaged goods, keep any food fresh with **TwinChill™ evaporators** that create separate climates in the fresh food and freezer sections

Spend more time filling and less time fumbling thanks to the **Integrated Dispenser Design**, which senses your proximity and automatically illuminates, so you never have to compromise on function and fashion

Café™ 30" Five in One Oven

with 120V Advantium® Technology

CSB913P4NW2 / CSB913P2NS1 / CSB913P3ND1

FEATURES & BENEFITS

- Unmatched versatility to unleash your imagination - Enjoy a whole new level of cooking flexibility with a single oven that can be used in five different ways. Use it as a Convection Oven, Microwave, Toaster Oven, Warming/Proofing Oven, and Precision Cook Oven with Advantium Technology
- Cook smarter, not longer - Achieve oven-quality results in a fraction of the time as halogen light, microwave energy and True European Convection work together to provide the exact amount and type of heat your food needs, precisely when it needs it
- Brighten up life in the kitchen - Easily navigate wall oven settings using a stunning full color display that adds an unexpected touch of style to your kitchen
- Say goodbye to rubbery leftovers - Achieve crispy results at microwave speed with more than 20 reheat programs that make leftovers taste like new
- The perfect marriage of quality and speed - Eliminate the need for preheating and cook your favorite foods two- to four-times faster than a conventional oven
- Healthy meals without the fuss - Fresh vegetables and rice are perfectly prepared with a steam cook option that simplifies the entire process
- Create a look that matches your personal style - Select any combination of premium finishes and hardware options to create a stunning look customized to any owner's taste
- Clean-up has never been easier - Keep your oven looking like new at all times with steam clean
- The perfect fit you've always dreamed of - When you're updating your kitchen, attention to detail is a priority. That's why Café Advantium wall ovens are guaranteed for an exact fit for an easy and seamless replacement.

DIMENSIONS AND INSTALLATION INFORMATION

Note: Cabinets installed adjacent to wall ovens must have an adhesion spec of at least a 194°F temperature rating.

Note: 2" minimum between cutouts when installed above warming drawer or single wall oven.

Installation information: Before installing, consult installation instructions packed with product for current dimensional data.

Note: Advantium 240 volt models cannot be installed under 36 inches height.

Note: Use of the accessory drawer will replace the bottom trim piece for applicable installations. Please see installation instructions for full details.

Note: Cabinets installed adjacent to wall ovens must have an adhesion spec of at least 194° F temperature rating.

A = The unit overlap is 1-3/4" but allow 1-7/8" clearance from top edge of cutout
B = The unit overlap is 2-1/4" but allow 2-3/8" clearance from side edges of cutout
C = The unit overlap is 1" but allow 1-1/8" clearance from bottom edge of cutout

Lot 5
Forestside (Ph8)

Café™ 30" Five in One Oven
with 120V Advantium® Technology
CSB913P4NW2 / CSB913P2NS1 / CSB913P3ND1

DIMENSIONS AND INSTALLATION INFORMATION

Prepare the opening: The Advantium Built-In Oven can be installed in combination with other appliances. Always follow each product's Installation Instructions to complete the installation.

Single oven installation: Order a 30" wide single oven cabinet or cut the opening in a wall to the dimensions shown.

- * For existing cutouts, a maximum width of 28-1/2" is acceptable. If the opening is slightly wider, secure a furring strip on each side of the cutout for securing the oven.
- Always maintain 36-3/4" minimum height from the floor to the cutout in any single or combined installation.
- The unit overlap on the top is 1-3/4" but allow 1-7/8" clearance from top edge of cutout. The unit overlap on each side is 2-1/4" but allow 2-3/8" clearance from side edges of cutout. The unit overlap on the bottom is 1" but allow 1-1/8" clearance from bottom edge of cutout.
- Oven overlaps will conceal cut edges on all sides of the opening.

Preparation with a Warming Drawer

When installed over a single oven or a warming drawer, allow at least 2" between the two openings. This separation will provide clearance for bottom overlap of the Advantium Built-In Oven and the other appliance overlaps. Construct a solid oven floor of 3/8" min. thick plywood supported by 2 x 4 or 2 x 2 runners on all sides.

- The support must be level and rigidly mounted, flush with the bottom edge of the cutout.
- * For existing cutouts, a maximum width of 28-1/2" is acceptable. If the opening is slightly wider, secure a furring strip on each side of the cutout for securing the oven.

Note: Additional clearances between the cutouts may be required. Check to be sure the oven supports above the Warming Drawer location do not obstruct the required interior depth and height. See Warming Drawer installation instructions for details.

Installation Over a Wall Oven and Warming Drawer:

- * For existing cutouts, a maximum width of 28-1/2" is acceptable. If the opening is slightly wider, secure a furring strip on each side of the cutout for securing the oven.
- Note:** Additional clearances between the cutouts may be required. Check to be sure the oven supports above the Warming Drawer location do not obstruct the required interior depth and height. See Warming Drawer installation instructions for details.
- Caution:** For personal safety, the mounting surface must be capable of supporting the cabinet load, in addition to the added weight of the oven and drawer, plus additional oven loads.

Installation over Warming Drawer:

Installation over a Wall Oven and Warming Drawer:

DIMENSIONS AND INSTALLATION INFORMATION

Single wall ovens are NOT approved for stacking above or below another single wall oven.

Wall coverings, countertops and cabinets surrounding the wall oven must be able to withstand a temperature of up to 200°F (94°C).

If the cabinet in which the wall oven is installed does not have a solid bottom, two braces or runners must be installed to support the weight of the oven. The runners and braces must support up to 220 lbs (99 kg).

Door handle protrudes 3" from door face. Cabinets and drawers on adjacent 45° and 90° walls should be placed to avoid interference with the handle.

ATTENTION INSTALLER: Electric wall ovens are NOT approved for installation with a plug and receptacle. They must be hard wired into an approved junction box

IMPORTANT: Before installing, consult installation instructions packed with product for current dimensional data.

Cabinet	30"
A - Overlap of oven at top of cutout	1-1/4"
B - Overlap of oven other side of edge of cutout	3/4"
C - Overlap of oven at bottom of cutout	1-1/4"
Oven	
D - Install depth	23-1/2"
E - Overall height with trim	28-5/8"
F - Overall width	29-3/4"

For answers to your Café™ product questions, visit our website at cafeappliances.com.

Lot 5
Forestside (Ph 8)

Café™ Professional Series 30" Built-In
Single Electric Convection Wall Oven
CTS70DP2NS1

DIMENSIONS AND INSTALLATION INFORMATION

30" Single electric wall ovens are approved for installation below a countertop, and below certain gas and electric cooktops. Refer to the Approved Combinations Matrix available at cafeappliances.com for specific information.

30" Single electric wall ovens are approved for installation above 27" and 30" warming drawers.

ATTENTION INSTALLER: Electric wall ovens are NOT approved for installation with a plug and receptacle. They must be hard wired into an approved junction box.

IMPORTANT: Before installing, consult installation instructions packed with ALL products for current dimensional and combination data.

SIDE-BY-SIDE INSTALLATION
(TWO OVENS IN SEPARATE CUTOUTS)

NOTE: One cooktop may be centered over either oven in the side-by-side installation.

INSTALLATION BELOW A COOKTOP

IMPORTANT: Maintain a minimum distance of 31 1/4" from the top surface of the countertop to the wall oven platform to ensure that the cooktop and wall oven do not interfere with each other (see picture).

UNDERCOUNTER INSTALLATION

Gas or Electric Cooktops May Be Installed Over This Oven. See Cooktop Installation Instructions for Cutout Size. See Label on Top of Oven for Approved Models.

Dimension and installation information are shown in inches.

Lot 5
Forestside (Ph 8)

Brussels

User Manual

VRH-BRUSSELS-30/36

Vesta Simple Kitchen Solutions

Lot 5
Forestside (Ph8)

Venting Requirements

Vent system must terminate to the outside (roof or side wall).

DO NOT terminate the vent system in an attic or other enclosed area.

DO NOT use 4" (10.2 cm) laundry-type wall caps.

Use metal/aluminum vent only. Rigid metal/aluminum vent is recommended.

DO NOT use plastic vent.

Always keep the duct clean to ensure proper airflow.

Calculate the following figures before installation:

1. Distance from the floor to the ceiling.
2. Distance between the floor to the countertop/stove (US Standard: 36").
3. Distance between the countertop/stove to the range hood (recommend* 28" to 31").
4. Height of hood and duct cover.

For the most efficient & quiet operation:

A distance of 28" to 31" is recommended* between stove top and the bottom of range hood.

It is recommended that the range hood be vented vertically through the roof through 6" (15.2 cm) or bigger round metal/aluminum vent work.

Lot 5
Forestside (Ph8)

The size of the vent should be uniform.

Use no more than three 90° elbows.

Make sure there is a minimum of 24" (61 cm) of straight vent between the elbows if more than one elbow is used.

DO NOT install two elbows together.

The length of vent system and number of elbows should be kept to a minimum to provide efficient performance.

The vent system must have a damper. If roof or wall cap has a damper, DO NOT use damper (if supplied) on top of the range hood.

Use silver tape or duct tape to seal all joints in the vent system.

Use caulking to seal exterior wall or roof opening around the cap.

Lot 5
Forestside (Ph8)

Height & Clearance

Maximum ceiling clearance 110" at 31" hood mounting height above countertop/stove (may vary with different model).
Chimney extensions available for higher ceilings.

Lot 5
Forestside (Ph8)

Important

A minimum of 6" round (standard for this range hood) or 3-1/4 x 10" rectangular duct (purchased separately) must be used to maintain maximum airflow efficiency.

Flexible 6" round duct provided for convenience, always use rigid type metal/aluminum ducts if available to maximize airflow when connecting to provided duct.

Please use Duct Run Calculation below to compute the total available duct run when using elbows, transitions and caps.

ALWAYS, when possible, reduce the number of transitions and turns. If long duct run is required, increase duct size from 6" to 7" or 8" . If a reducer is used, install a long reducer instead of a pancake reducer. Reducing duct size will restrict airflow and decrease airflow, thus reduce duct size as far away from opening as possible.

If turns or transitions are required: Install as far away from opening and as far apart, between 2, as possible.

Minimum mount height between stove top to hood bottom should be no less than 28-inch*.

Maximum mount height between stove top to hood bottom should be no higher than 31-inch*.

It is important to install the hood at the proper mounting height. Hoods mounted too low could result in heat damage and fire hazard; while hoods mounted too high will be hard to reach and will lose its performance and efficiency.

If available, also refer to stove top manufacturer's height clearance requirements and recommended hood mounting height above range.

Lot 5
Forestside (Ph 8)

* Due to different ceiling height configurations, recommended height may not be applicable.

Minimum Duct Size:

Round - 6" minimum

Lot 5
Forestside (Ph8)

Electrical Requirements

IMPORTANT: Observe all governing codes and ordinances.
(Please consult with a qualified electrician for 220-Volt 50 Hz voltage)

IT IS THE CUSTOMER'S RESPONSIBILITY:

To contact a qualified electrical installer.

To assure that the electrical installation is adequate and in conformance with National Electrical Code, ANSI/ NFPA 70 — latest edition*, or CSA Standards C22. 1-94, Canadian Electrical Code, Part 1 and C22. 2 No. 0-M91- latest edition** and all local codes and ordinances.

If codes permit and a separate ground wire is used, it is recommended that a qualified electrician determine that the ground path is adequate.

A 120-volt, 60 Hz, AC-only, fused electrical supply is required on a separate 15-amp circuit, fused on both sides of the line.

Do not ground to a gas pipe.

Do not have a fuse in the neutral or ground circuit.

RISK OF ELECTRICAL SHOCK. This range hood must be properly grounded. Check with a qualified electrician if you are not sure whether the range hood is properly grounded.

The range hood should be connected directly to the fused disconnect (or circuit breaker) box through flexible armored or non-metallic sheathed copper cable. A U.L. - or C.S.A. - listed strain relief must be provided at each end of the power supply cable. Do not use extension cord or adapter plug with this appliance.

Lot 5
Forestside (Phs)

The range hood must be connected with copper wire/plug only.

Always use plug provided. If not possible, connect three wires according to its color (black to hot, white to neutral, and green to ground) to house wires and cap with wire connectors:

Wire sizes (copper wire only) and connections must conform with the rating of the appliance as specified on the model/serial rating label. Wire sizes must conform to the requirements of the National Electrical Code ANSI/NFPA 70 — latest edition*, or CSA Standards C22. 1-94, Canadian Electrical Code Part 1 and C22. 2 No. 0-M91 - latest edition** and all local codes and ordinances. A U.L. - or C.S.A. - listed conduit connector must be provided at each end of the power supply cable (at the range hood and at the junction box).

Copies of the standards listed may be obtained from:

GE® Appliances 36" Built-In Knob-Control Electric Cooktop

FEATURES AND BENEFITS

- Four radiant cooking elements
- Power Boil dual-ring element
- Keep warm setting
- Warning zone
- Melt setting
- Hot surface indicator lights
- Cooktop "on" indicator light
- Fit Guarantee
- ~~Model JP3036DLBB - Black on black~~
- ~~Model JP3036TLWW - True white~~
- Model JP3036SLSS - Stainless steel

GUARANTEED FIT

Replacing a similar cooktop from GE Appliances or another brand? GE cooktops are guaranteed for an exact fit or GE Appliances will pay up to \$100 toward modifications

Visit geappliances.com for more info

Lot 5
Forestside (Ph8)

GE® Appliances 36" Built-In Knob-Control Electric Cooktop

DIMENSIONS AND INSTALLATION INFORMATION (IN INCHES)

IMPORTANT: Requires a 5" free area between the bottom of the cooktop to any combustible material, i.e., shelving. Free area not required when installing wall oven underneath cooktop. Refer to installation instructions. Requires a 15" minimum from cooktop to adjacent overhead cabinets. Units are furnished with a 48" flexible armored cable.

NOTE: 36" Ribbon cooktops are approved for use over select GE 30" Single Wall Ovens and Warming Drawers. Refer to cooktop and wall oven/warming drawer installation instructions packed with product for current dimensional data. If installed with a GE Telescopic Downdraft System, consult both the cooktop and downdraft installation instructions packed with product before installing. Cooktop gas/electric supply may need to be re-routed to install downdraft. The countertop cutout requires 23-1/2" minimum flat countertop surface and 25" minimum total countertop depth. In addition, other clearances to front edge of the countertop must be considered. Before installing, consult installation instructions packed with product for current dimensional data.

APPROXIMATE COOKING DIMENSIONS

To insure accuracy, it is best to make a template when cutting the opening in the counter

INSTALLATION ABOVE A WALL OVEN

VOLTAGE (60HZ AC)	240V	208V
CONNECTED LOAD (MAX.)	9.0kW	7.1kW
CURRENT DRAW (MAX.)	37.5 Amps	34.3 Amps
RECOMMENDED CIRCUIT BREAKER ¹	40 Amps	40 Amps

¹NOTE: Check local codes for required breaker size.

FEATURES & BENEFITS

Ultra-Wash & Dry – Unload sparkling clean, table-ready dishes thanks to our 90+ cleaning jets and an Ultra-Dry system that deliver excellent results

Loading Flexibility – Load the dishes your way: Our lower wash arm provides excellent coverage for the largest of loads. The fold down tines accommodate wide or oddly shaped items and our third rack provides extra space for your silverware and kitchen utensils

Adjustable Upper Racks – You'll have room for your finest stemware and space for tall bakeware with a rack that can be moved two inches up or down, creating ultimate loading flexibility

Wash Zones – Save time and use less water when you don't have a full dish load with a fully customizable cycle that lets you wash a true half load in the upper or lower rack

Steam + Sani - Eliminate the need to pre-wash dishes at the end of every meal, thanks to a Steam + Sani feature that easily loosens lingering traces of food with an added bonus of complete sanitization

Create a look that matches your personal style – Select any combination of premium finishes and hardware options to create a stunning look customized to any owner's taste
