Purchaser

#### The Purchaser acknowledges that:

- 1. Prices and specifications which do not form part of this Agreement are subject to change without notice at the sole discretion of the vendor.
- The vendor may substitute materials of equal or greater value without consent.
- The Vendor has the right to exercise full architectural control over exterior finishes and as such, the Vendor shall have final approval of all colour selections.
- 4. All colour and material selections are to be made from Vendor's standard samples unless otherwise paid for as an upgrade.
- 5. The purchaser understands that all decorator items, furnishings, appliances, draperies, painted colour walls, and floors, wallpaper, panelling, alarm system, central air conditioning and eavestroughing found inside the model homes are for display purposes only and do not constitute standard items in the purchase price.
- Service location, tankless hot water heater and furnace location, specifications and material finishes may vary from model homes/ plans.
- The number of steps required at entrances into the building may vary from the plans depending on grading requirements.
- The purchaser understands that renderings and brochures are an artist's concept and that some variations may occur to the final finished product.
- The Purchaser understands that vertical and horizontal chaseways may be required at wall corners and ceiling corners respectively
  in order to contain mechanical pipes as required.
- 10. The Purchaser understands that all Multi Media locations are approximate and vary from chosen locations.
- 11. The purchaser understands that due to normal manufacturing production materials which are installed in their home may vary slightly in colour from the vendor's samples and/or model homes.
- 12. Due to the natural composition of such materials as Granite and Marble, inherent variations in texture, colour and consistency are to be expected and considered normal. As such, the Purchaser agrees not to hold the Vendor liable for such variations.
- 13. The wood used in the finishing products of your home such as wood flooring, cabinetry exhibit natural variations in colour tone, graining pattern and consistency. As no two pieces of wood are identical, these natural variations will create colour variations upon staining thereby making it virtually impossible to achieve true colour consistency.
- 14. Any hardwood flooring installed in the Real Property is made of kiln-dried natural material which is subject to natural shrinkage (typically in winter when humidity levels tend to be low) and expansion (typically in summer when humidity levels tend to be high) for which the Purchaser(s) agrees is not the responsibility of the Vendor and agrees that the Vendor shall not be liable in respect of such issues. The Purchaser(s) also acknowledges being advised by the Vendor that ceramic tile rather than hardwood flooring is recommended at entry points to the home due to the possibility of water exposure. The Purchaser(s) is advised that the Ontario Building Code recommends against the installation of wood flooring in kitchens, bathrooms, entrance halls, laundry, and general storage areas (the "Designated Areas"). Wood flooring is water permeable and over time such flooring and sub-flooring beneath it could deteriorate if moisture persists. Should the Purchaser(s) selections for materials for the dwelling include wood flooring in the designated areas, the Purchaser(s) assumes the risks described herein voluntarily.
- 15. Purchaser(s) acknowledge that kitchen and bathroom ceramic wall border and or decorator insert tiles selected by the Purchaser(s) are installed at the discretion of the installation contractor unless specified otherwise by the Purchaser(s).

16. Purchaser(s) acknowled very high speeds.	dge that High Efficiency Washin	g machines have the potential to create	vibrations due to the tub spinning at
