- Looks great and has alot of features

Been using it about a month now and the combo unit is working great. So far we like it. One thing that would be nice is when you shut off the oven or the microwave have the unit display show OFF.

- Bakes very well. Microwave is excellent

It is good looking, works very well and I have fun gored out most of the features. I still cannot set the clock or the date, it goes back to what it was when I first got it.

- Micro oven combo

We love the combo unit the only issue is the time and date resets to Jan 1 and no time often. We are unsure why this happens.
