NON RESILIENT FLOORING WAIVER
for

HARDWOOD FLOORING

Hardwood flooring is both a practical and elegant flooring option suitable for use in many areas of the home.

Increasingly however inquiries into the use of hardwood flooring in non-conventional areas of the home such as kitchens have prompted a need to forewarn and to heed caution to this optional upgrade.

Valecraft Homes (2019) Limited recommends strongly against the use of hardwood flooring in unconventional areas of the home such as the kitchen areas due to the natural absorption properties of hardwood when in contact with water or high-humidity areas. Hardwood flooring which has taken on water or excessive moisture will cup and/or buckle and ultimately prove to be costly to repair.

It is for this reason that VALECRAFT HOMES (2019) LIMITED will not guarantee nor provide warranty beyond manufacturing defect for installation of hardwood flooring in any of the aforementioned areas.

Should you decide to proceed against the Builder's recommendations, extreme caution and care must be taken not to leave any standing water on these floors for any length of time. All other care and maintenance instructions with respect to hardwood flooring must further be followed.

I/we, 9080520 Canada Inc. have read and fully understand the aforementioned caution and recommendation set forth by the builder and as such hereby release VALECRAFT HOMES (2019) LIMITED from future responsibility with respect to flooring damage caused as a result of water and/or excessive moisture.
