

This architectural drawing shows a two-story house with a complex roofline. The left side features a gabled section with a stone-textured exterior and a large, multi-paned window. The right side has a similar gabled section with a brick-textured exterior and a smaller window. The central part of the house has a flat roof section. The ground floor includes a large arched entrance and a balcony on the right side. The drawing is a black and white line art illustration.

A black and white line drawing of a two-story stone building. The building features a gabled roof with a central chimney. The left side has a smaller gable with a small arched window. The right side has a larger gable with a large arched window. The ground floor has two large arched doors. The entire building is constructed from stone blocks.

This is a black and white architectural line drawing of a two-story brick house. The house features a gabled roof with a small dormer window in the center. The front facade has six rectangular windows: three on the second floor and three on the first floor. A small front porch with a railing is located on the left side of the first floor. On the right side of the first floor, there is a large bay window with a decorative pediment and a small balcony above it. The house is surrounded by a lawn and a sidewalk.
