

SHARP

KB-6524PSC
Insight Pro® Microwave Drawer® Oven

INSIGHT-PRO®

Innovative thinking led to the world's first Microwave Drawer® Oven, an appliance that has helped revolutionize kitchen design and microwave oven placement. Now Sharp introduces the next generation of this successful appliance—larger, sleeker and more accessible than ever. The new KB-6524P fits in the same space as other Sharp 24-inch models, yet its larger 1.2 cu. ft. interior is tall enough to hold a 20 oz. cup from your favourite take-out coffee store. Plus, there are two convenient ways to open or close the drawer—either pull or push the Easy-Open handle or simply touch the Auto-Touch™ control panel. With more convenience features, quieter operation and a more integrated design, the KB-6524P really is the best solution yet for where to place the microwave.

New 24-Inch Design

The new KB-6524P joins Sharp's line-up of Microwave Drawer appliances. The design is new, inside and out. The cavity is larger with 1.2 cu. ft. capacity, tall enough to hold your favourite 7-in. high mug or a 20 oz. cup from your neighbourhood take-out coffee store. The new open handle and concealed louvers give this model a contemporary quality look and feel. With all these changes, outside dimensions remain the same, making kitchen planning and installation easier.

Easier Accessibility

Just pull or push the Microwave Drawer handle and Sharp's exclusive Easy-Open system activates a motor to open or close the drawer automatically. For even easier access, the control panel also features Open and Close buttons for one-finger operation.

Smaller, lower drawer slides make the cavity more accessible so it's easier to clean the top and back walls. And best of all, there's no need to remove the dish from the oven to check, stir, or turn the food.

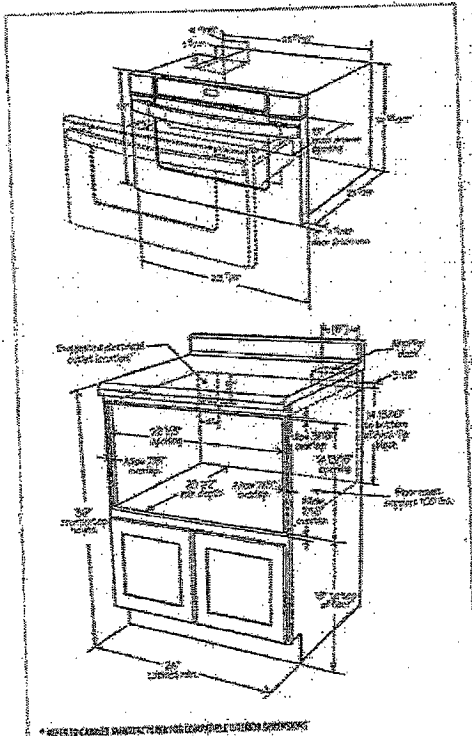

Increased Functionality

Sharp continually looks at where consumers place their microwave ovens and how they use them. Based on research with Microwave Drawer owners, we've expanded Short-Cut options to include "Warm" for heating syrup for pancakes and dessert sauce for ice cream. A new Beverage Center warms coffee or heats water for hot tea or instant coffee or soup. Sensor Cook settings and defrost options have been expanded.

French Door Refrigerator

Electrolux Icon

Note: Optional Louvered Trim Kit and Color Kit available for French Door Counter-Depth Refrigerator. For specifications, refer to Louvered Trim Kit (P41723001) installation page or Color Kit (EOK23CDS) installation page on web.

Counter-Depth French Door Refrigerator Specifications

- Product Weight - 538 Lbs.
- An electrical supply with grounded three-prong receptacle is required. The power supply circuit must be installed in accordance with current edition of National Electrical Code (NECA 70) and local codes & ordinances.
- Voltage Rating - 120V/60Hz/15 or 20 Amps
- Connected Load (kW Rating) @ 120 Volts = 1.02kW
- Amps @ 120 Volts = 8.5 Amps
- Always consult local and national electric & plumbing codes.
- Floor should be level surface of hard material, capable of supporting fully loaded refrigerator.
- When installing refrigerator adjacent to wall, cabinet or other appliance that extends beyond front edge of unit, 20" minimum clearance recommended to allow for optimum 120° to 180° door swing, providing complete drawer access and removal. (Specify 4-1/2" minimum clearance will ONLY allow for 90° door swing which will provide drawer/crisper access with restricted removal.)
- To ensure optimum performance, avoid installing in direct sunlight or close proximity to range, dishwasher or other heat source.
- For proper ventilation, front grille MUST remain unobstructed.
- Recess electrical outlet when possible.
- Water access on rear wall recommended to prevent water line damage.
- Water Pressure - Cold water line must provide between 60 and 100 pounds per square inch (psi).

- Copper tubing with 1/2" O.D. recommended for water supply line with length equal to distance from rear of unit to household water supply line plus 7 additional feet. Optional Water Supply Installation Kits available.
- Adjustable front rollers to assist with door alignment.
- If optional Color Kit (P41723001) is to be used, different cutout dimensions are required. Refer to Color Kit (EOK23CDS) installation Specifications page on web.
- If optional Louvered Trim Kit (P41723001) is to be used, different cutout dimensions are required. Refer to Louvered Trim Kit (P41723001) installation Specifications page on web.

"Built-In Look" Specifications

- Minimum opening of 70 1/4" H x 35" W x 25" D required to allow for ease of installation, proper air circulation, and plumbing/electrical connections.
- Remove all wall/floor molding prior to installation.

Note: For planning purposes only; refer to Product Installation Guide on the web at electrolux.com for detailed instructions.

Optional Accessories

- Color Kit - (P41723001)
- Louvered Trim Kit - (P41723001)
- PureAdvantage® Water Filter Replacement Cartridge - (P41723001)
- PureAdvantage® Air Filter Replacement Cartridge - (P41723001)
