

**STANDARD APPLIANCE OPENINGS**

The purchaser acknowledges the following standard spaces for kitchen appliances:

Range Conventional – 30" Width

Hood Fan – 30" Width (must be the same or larger as range opening as per Ontario Building & Fire Code)

Refrigerator – 36" W x 72" H (Approximate - height may change due to bulkheads)

Dishwasher – 24" Width

6" Exhaust Vent above stove

OTHER \_\_\_\_\_

**UPGRADED APPLIANCE OPENINGS**

**\*Check all that apply - NON-STANDARD APPLIANCE OPTIONS**

**NOTE:** When upgrading appliances, there may be an additional charge to modify cabinetry and/or electrical and plumbing to accommodate the appropriate size from the manufacturer specifications of each appliance.

**\*\*MANUFACTURERS SPECIFICATIONS MUST BE ATTACHED\*\***

36" / 42" Stove (Hood fan width will be the same as per Ontario Building Code)

Gas Stove

Slide-In Stove

Cooktop

\*(Gas/Electric – Cut-out Charge & Plug Required)

Built-In Wall Oven

Hood Fan (may require larger vent, charges will apply – 6" is standard)

8" Vent / 10" Vent

Chimney hoods \*\*CENTRE VENT ABOVE STOVE (clearance space will be left with this appliance will not butt up against cabinetry)

Built-In Microwave with Trim Kit

Built-In Microwave Drawer with Trim Kit

Warming Drawer

OTR – Over The Range Microwave \*Plug required

Built-in Refrigerator/Sub Zero – If purchasing a side by side or French Door, the wall beside the door may be an issue if it is deeper than 24"

\* Applicable charges may apply if required to due to space accommodations

\*Note: Refrigerator Door Swing

Wine / Bar Fridge (electrical required)

Steam Oven / Built-In Coffee makers

Cargo Waste Bin systems

Front Load Washer & Dryer \*(Specs required if installing counter above)

Stackable Washer & Dryer

~~NO~~ **NOTE:** It is the Purchaser's responsibility to coordinate delivery, installation and hook up of appliances and to ensure they are installed as per Manufacturers specifications after closing.

~~NO~~ Purchaser acknowledges responsibility for providing correct specification for such appliances. The purchaser agrees to deliver forthwith to the Builder the manufacturer's appliance specifications where the size exceeds the standard openings.

~~NO~~ If specs not received, the standard openings as determined by Zancor Homes will be provided. If rework/repair is required due to late specs received, additional costs will be applied.

## BUILDER NOTIFICATION FOR APPLIANCE SPECIFICATIONS

Please find attached appliance specifications, as provided and signed off by the purchaser. It is the responsibility of the builder to ensure that any electrical, water supply, gas fittings, venting and any other appliance requirements are reviewed with the purchaser directly. It is also the responsibility of the builder to ensure that they have all relevant appliance spec's, as required to ensure installation of said appliances.

### Built-in appliance cut-out process:

- ☐ Once a date has been confirmed for the delivery of your appliances please contact our Customer Service Dept. at Paris Kitchens 905.886.5751
- ☐ We require at least **10 BUSINESS DAYS** notice to set up an appointment and all appliances (including trim kits) **MUST** be on site. We aim to schedule our Service Installers to complete the cut-out(s) the day after the appliances have been delivered. Please keep in mind that all appointments are scheduled between Monday to Friday from 8:00am to 3:00pm.  
(Not including holidays)

☐ After our Service have completed the cut-out(s), the installation and connection of the appliances can proceed (installation is NOT performed by Paris Kitchens). We do not install or connect appliances; this must be arranged by the homeowner with the appropriate trades.

- ☐ Please sign-off on the attached package of: APPLIANCE SPECIFICATIONS (PROVIDED BY PURCHASER)

36" GAS RANGE - 6 BURNERS

WOLF

GR366

FEATURES

- 6 dual-stacked, sealed burners
- Dual-stacked, sealed burners for higher highs, lower lows
- Convection oven for faster, more consistent cooking
- Infrared broiler inside oven sears quickly and evenly
- Heavy-gauge stainless steel
- Enhanced views into oven
- Rigorously tested in our U.S. manufacturing facilities for decades of use
- Exceptional 24/7 support from our Customer Care team in Madison
- Signature red infinite control knobs
- Continuous cast-iron grates for easy movement of pots and pans
- Individual spark ignition system
- Adjustable legs for stability, plus rear casters

ACCESSORIES

- Bake stone kit (stone, rack and peel)
- Stainless steel, brass or chrome bezels
- High altitude conversion kit
- Full-extension easy glide oven rack
- Cast iron S-grates and wok grate
- Stainless steel kickplate
- Signature red, black or stainless steel control knobs
- Front leg covers
- 5" and 10" stainless steel risers, and 20" riser with shelf

Accessories available through an authorized Sub-Zero dealer.  
For local dealer information, visit [subzero-wolf.com/locator](http://subzero-wolf.com/locator).

## Electric Dryer

### PRODUCT MODEL NUMBERS

WED2HED, WED81HED, WED8740D, WED87HED, WED95HED, WED97HED

Back view:

Recommended Installation Spacing:

**NOTE:** Most installations require a minimum of 5" (127 mm) clearance behind dryer for exhaust vent with elbow. See "Venting Requirements."

\* Approx. measurement.

### Installation spacing for recessed area or closet installation

The dimensions shown below are the recommended spacing for this dryer.

- Additional spacing should be considered for ease of installation and servicing.
- Additional clearances might be required for wall, door, floor moldings, and dryer venting.
- Additional spacing of 1" (25 mm) on all sides of the dryer is recommended to reduce noise transfer.
- For closet installation, with a door, minimum ventilation openings in the top and bottom of the door are required. Louvered doors with equivalent ventilation openings are acceptable. Companion appliance spacing should also be considered.

W10676165A  
04/2014

I HAVE READ AND  
FULLY UNDERSTAND  
THIS LAYOUT/QUOTATION

bot. QRC

CUSTOMER SIGNATURE

D Rye

ELECTRICAL REQUIREMENTS

To supply the required 3 or 4 wire, single phase, 120/240 volt, 60 Hz., AC only electrical supply (or 3 or 4 wire, 120/208 volt electrical supply, if specified on the serial/rating plate) on a separate 30-amp circuit, fused on both sides of the line. A time-delay fuse or circuit breaker is recommended. Connect to an individual branch circuit.

VENTING REQUIREMENTS

Exhaust venting: Exhaust your dryer to the outside. 4" (102 mm) diameter vent is required. Rigid or flexible metal exhaust vent must be used. Do not use plastic or metal foil vet. Exhaust hood must be at least 12" (305 mm) from the ground or any object that may be in the path of the exhaust.

The Vent System Chart provides venting requirements that will help achieve best drying performance.

Whirlpool Vent System Chart			
Number of 90° elbows	Type of vent	Box/louvered hoods	Angled hoods
0	Rigid metal	64 ft. (20 m)	58 ft. (17.7 m)
1	Rigid metal	54 ft. (16.5 m)	48 ft. (14.6 m)
2	Rigid metal	44 ft. (13.4 m)	38 ft. (11.6 m)
3	Rigid metal	35 ft. (10.7 m)	29 ft. (8.8 m)
4	Rigid metal	27 ft. (8.2 m)	21 ft. (6.4 m)

NOTE: Bottom exhaust installations have a 90° turn inside the dryer. To determine maximum exhaust length, add one 90° turn to the chart.

Louvered Hood

Box Hood

Acceptable Style:

Angled Hood

Determine vent path:

- Select route that will provide straightest and most direct path outdoors.
- Plan installation to use fewest number of elbows and turns.
- When using elbows or making turns, allow as much room as possible.
- Bend vent gradually to avoid kinking.
- Use as few 90° turns as possible.

Determine vent length and elbows needed for best drying performance:

- Use following Vent System Chart to determine type of vent material and hood combinations acceptable to use.

NOTE: Do not use vent runs longer than those specified in Vent System Chart. Exhaust systems longer than those specified will:

- Shorten life of dryer.
- Reduce performance, resulting in longer drying times and increased energy usage.

**CUSTOMER SIGNATURE**

LOT. 9  
RC

WASHER

**Custom cabinet installation (washer only):**

**Undercounter installation - washer only:**

All dimensions show recommended spacing allowed, except for closet door ventilation openings which are the minimum required.

For each arrangement, consider allowing more space for ease of installation and servicing, and spacing for companion appliances and clearances for walls, doors, and floor moldings.

Space must be large enough to allow door to fully open. Add spacing of 1" (25 mm) on all sides of washer to reduce noise transfer; if a closet door or louvered door is installed, top and bottom air openings in door are required.

\*\* Recommended 4" (102 mm), minimum 1.5" (38 mm)

**ELECTRICAL REQUIREMENTS**

A 120 volt, 60 Hz., AC only, 15- or 20-amp, fused electrical supply is required. A time-delay fuse or circuit breaker is recommended. It is recommended that a separate circuit serving only this appliance be provided.

**DRAIN SYSTEM**

Drain system can be installed using a floor drain, wall standpipe, floor standpipe, or laundry tub. Select method you need.

**IMPORTANT:** To avoid siphoning, only 4.5" (114 mm) of drain hose should be inside standpipe. Always secure drain hose with cable tie.

**Floor standpipe drain system**

Minimum diameter for a standpipe drain: 2" (51 mm). Minimum carry-away capacity: 17 gal. (64 l) per minute. A 1/4" (6 mm) diameter to 1" (25 mm) diameter Standpipe Adapter Kit is available (Part Number 3363920). Top of standpipe must be at least 30" (762 mm) high; install no higher than 96" (2.44 m) from bottom of washer. If you have an overhead sewer and need to pump higher than 96" (2.44 m), a sump pump and associated hardware are needed. See "Alternate Parts".

**Wall standpipe drain system**

See requirements for floor standpipe drain system.

**Laundry tub drain system**

Minimum capacity: 20 gal. (76 l). Top of laundry tub must be at least 30" (762 mm) above floor; install no higher than 96" (2.44 m) from bottom of washer.

**Floor drain system**

Floor drain system requires a Siphon Break Kit (Part Number 285834), 2 Connector Kits (Part Number 285835), and an Extension Drain Hose (Part Number 285863) that may be purchased separately. See "Alternate Parts". Minimum siphon break height: 28" (710 mm) from bottom of washer. (Additional hoses may be needed.)

Dimensions are for planning purposes only. For complete details, see installation instructions packed with product. Specifications subject to change without notice.
