**INTERIOR FINISHES ACKNOWLEDGEMENT / WAIVER**

Purchaser accepts and acknowledges that the Builder reserves the right to substitute materials with those of equal or better quality where the manufacture, scheduling or delivery of materials may directly impact the Builder's ability to meet its' contractual obligations under the Agreement of Purchase and Sale. SB

**UPGRADES/EXTRAS:** All upgrades and additional selections indicated on the colour chart must be accompanied by an upgrades/extras sheet (PES) and full payment otherwise the selection will be invalid. All colour charts and upgrades/extras will not proceed until verified and signed by an authorized signing officer at the Vendor's head office. **CHANGES WILL NOT BE PERMITTED UPON COMPLETION AND SUBMISSION OF THE COLOUR CHART.** SB

**PORCELAIN & NATURAL STONES:** Due to the properties of natural stones including but not limited to **marble, granite, quartz**, no two pieces are exactly the same. Variations in colour, tone, granularity (pitting, fissures) and pattern are to be expected, including various lighting may affect the overall finished look. Stone tops are sealed at time of installation and should never be cleaned with lemon oil or vinegar. Stones are porous materials, therefore any spilled substance require immediate attention. Stone countertops require regular seal re-application as part of home maintenance. Purchaser acknowledges colour and product variations as well as natural imperfections may exist with the selection of natural stone materials and shall not hold the Vendor liable for provision of same. SB

**STONE COUNTERTOP JOINTS:** Purchaser is aware that one joint will be at each corner and on either side of slide-in-range (if applicable). It will also be where the length of the counter top exceeds the length of a stone slab. Slabs are usually approximately 5' x 8'. SB

**CERAMIC TILES:** Due to manufacturing, shade (dye lots), product variations may exist that can affect the overall look of the finished product. Although every effort will be made to ensure the colours and materials selected are as close as possible to the samples, the purchaser acknowledges that the sample tiles supplied in the Design Centre may not be identical to the materials installed in the home. SB

**STAIR STAINS:** Due to the natural properties of wood, many variables can affect the overall look of the finished product. Factors including but not limited to wood type, knotting, graining, density, age, humidity, and air temperature can result in substantial variations in stain intensity. The purchaser accepts that although the Vendor will do their best to match stain the unfinished stairs as close as possible to the pre-finished floors, it is not possible to have an identical match and that there MAY be shade differences between the two products. SB

**CABINETRY:** Due to the natural properties of wood, slight variations apparent with cabinetry are to be expected. This includes but not limited to wood species, wood grain, colour, finish, product variations, and natural imperfections are all factors that may affect the overall look of the finished product. Such factors make exact colour matching impossible. The type and intensity of lighting in the areas of designated cabinetry placement may also highlight characteristics of cabinetry finish. All cabinets shall be finished with a white melamine interior box unless a finished interior is upgraded. Due to building specifications and/or on-site conditions, certain cabinetry upgrades may not be possible. The purchaser acknowledges that the Builder cannot guarantee the cabinetry finish or provision of certain upgrades and shall not hold the Builder liable for provision of same. SB

**UPGRADES/EXTRAS:** All upgrades and additional selections indicated on the colour chart must be accompanied by an upgrades/extras sheet (PES) and full payment otherwise the selection will be invalid. All colour charts and upgrades/extras will not proceed until verified and signed by an authorized signing officer at the Vendor's head office. **CHANGES WILL NOT BE PERMITTED UPON COMPLETION AND SUBMISSION OF THE COLOUR CHART.** SB

**HARDWOOD / LAMINATE FLOORING:** Due to the properties of wood and laminate, many variables can affect the overall look of the finished product. Variations include but not limited to wood type or laminate finish, colour/stain and wood grain are significant factors that make exact colour matching impossible. The purchaser acknowledges that the hardwood flooring is a pre-finished product in a controlled environment. Expansion, compression and cupping are characteristics of hardwood flooring once installed in the home. The purchaser acknowledges these may become apparent over time and despite the Builders' efforts to install the hardwood flooring materials in keeping with good workmanship, the Builder shall not be responsible nor held liable for minor variances of fluctuation in hardwood flooring materials. SB

**HARDWOOD / LAMINATE WAIVER:**

I/We understand hardwood flooring is classified as a porous material and as such not recommended by the Builder in certain areas. I/We understand there is a concern due to possible water and other substances being frequently splashed or spilled onto the floor and in contravention of Ontario Building Code Section 9.30.1.2(1).

*"Finished flooring bathrooms, kitchens, public entrance halls, laundry & general storage areas shall consist of resilient flooring, felted-synthetic-fibre floor coverings, concrete, terrazzo, ceramic tile, mastic or other types of flooring providing similar degrees of water resistance."*

I/We are prepared to assume full responsibility for any damage caused to the hardwood floor or subfloor due to moisture absorbency in the mentioned areas, and agree to waive any claims against the Township of residence, TARIOR and/or the Builder in relation to the matter. SB

## Installation Details

Furniture return

**A:** Area for installation of power connection.

**B:** Area for running the water line. It is recommended that the waterbox is placed adjacent to the installation cavity, so that it can be accessed for service without uninstalling the appliance. If this is not possible, place the recessed waterbox adjacent to the water supply socket elevated at the heights as referenced in areas A and B.

**C:** Niche depth depends on kitchen design. For a flush installation, the depth needs to be at least 24 inches plus the thickness of the door panel.

Stainless steel models contain a panel-ready base unit, ready-to-install stainless steel door(s) with a right or left door swing and handle(s).

## MORE EASY-TO-USE FEATURES

### 15-MINUTE FAST WASH<sup>1</sup>

Quickly deep cleans the items you need most.

### SOLID SOIL LEVEL. CLEANS CAKED-ON STAINS

The solid soil level gives you a deeper clean to get rid of those tough stains that get caked on, like mud or dirt.

### SANITIZE OPTION

Certified to kill and remove 99% of bacteria and 95% of allergens.<sup>2</sup>

### STAINSOAK™ OPTION ELIMINATES PRE-TREAT

Unlike other washers, it starts by premixing water, detergent, and stain remover before the cycle begins to create a powerful, yet gentle cleaning solution. Then, the temperature, tumbling actions, and time are optimized based on the stain you select.

### ENERGY STAR®-CERTIFIED

Electrolux washers meet strict criteria to guarantee high-quality energy efficient performance — without sacrificing clean.

### ACTIVEWEAR CYCLE

Takes care of delicate and expensive activewear garments.

### 10-YEAR MOTOR WARRANTY PLUS LIFETIME TUB WARRANTY

Rest easy knowing your washer is backed by a 10-year motor and lifetime tub warranty.

### PERFECT BALANCE® SYSTEM & SECOND FLOOR GUARANTEE

Balances loads for smooth, quiet operation. So quiet you can even run your washer on the second floor or near bedrooms without noticing it.<sup>3</sup>

### FITS MORE ROOMS WITH REVERSIBLE WASHER DOOR

## 15" Pedestal Drawer Installation

Elevates washer height to 53 1/4". For detailed pedestal installation, refer to instructions included with pedestal or on web. Pedestal installation may require modified utility hookup locations. For details, refer to Product Installation Guide on web.

## Built-In Installations

\*Installation with steam dryer requires additional 3/4" hose clearance.

**Closet Installation:**  
If washer and dryer are installed in same closet, door(s) MUST be vented with 120 sq. in. minimum louvered opening, equally divided, located 3" from top and bottom of door. Louvered door(s) with equivalent air openings for full-length of door is acceptable. Air openings MUST remain unobstructed with door(s) installed.

**Stacking Units:**  
Stacking dryer above washer requires use of optional Stacking Kit (PN# STACKIT7X) with modified utility hookup locations for dryer. For complete installation details, refer to instructions included with Stacking Kit or on web.

**Under Counter Installation:**  
Installation of washer alone or side by side with dryer under counter, requires custom-built countertop and/or cabinetry to accommodate unit(s) height.

## Installation Clearances:

Washer can be built in alone or with dryer (side by side or stacked) in closet, recess or under counter installation with 0" minimum clearance required around sides and back of unit(s). To achieve 0" minimum rear clearance when installed with dryer, dryer MUST be vented straight back or with quick-turn 90° elbow. Steam dryer requires additional 1/4" steam hose clearance at back of unit(s). Installation of closet door(s) requires additional 1" minimum clearance between front of unit(s) and door(s). Location of plumbing, exhaust and utility hookups MUST be considered when planning any built-in installation. For additional installation details, refer to Product Installation Guides on web.

## Front Load Washer Specifications

- Product Weight – 237 Lbs. / Shipping Weight – 247 Lbs.
- An electrical supply with grounded three-prong receptacle is required. The power supply circuit must be installed in accordance with current edition of National Electrical Code (ANSI/NFPA 70) and local codes & ordinances. *(Do not use same circuit as dryer.)*
- Voltage Rating – 120V / 60Hz
- Connected Load (kW Rating) @ 120 Volts = 1.2 kW
- Amps @ 120V = 12A
- Equipped with 120V 3-wire power supply cord, approx. 60" long.
- Always consult local and national electric & plumbing codes.
- To maximize detergent effectiveness, ambient temperature should never be below 60°F.
- Can be installed alone, with or without optional 15" pedestal drawer, or stacked beneath matching Electrolux Dryer, which requires installation of optional dryer stacking kit. *(For installation details, refer to instructions included with optional pedestal or stacking kit or on web.)*
- Can be built in alone or with matching Electrolux Dryer (side by side or stacked) in closet, recess or under counter installation with 0" minimum clearance required around sides and back of unit(s). To achieve 0" minimum rear clearance when installed with dryer, dryer MUST be vented straight back or with quick-turn 90° elbow. Steam dryer requires additional 3/4" steam hose clearance at back of unit(s). Installation of closet door(s) requires additional 1" minimum clearance between front of unit(s) and door(s). Location of plumbing, exhaust and utility hookups MUST be considered when planning any built-in installation.
- Under-counter installation requires custom-built countertop and/or cabinetry to accommodate unit(s) height.

- Do NOT install in area exposed to dripping water or outdoor weather conditions, or where gasoline or other flammables, including automobiles, are kept or stored.
- For garage installation, washer MUST be located minimum 18" above floor.
- Floor MUST be solid with 1" maximum slope. To ensure vibration or movement does not occur, reinforcement of floor may be necessary. Do NOT install on carpeted surface.
- Leveling legs supplied to level washer properly and reduce excessive noise and vibration.
- H/C water faucets MUST be installed within 42" of washer's water inlet and MUST be 3/4" garden hose type, to connect to 48-1/2" inlet hoses.
- Water pressure MUST be between 20 and 120 psi with NOT more than 10 psi pressure difference between hot and cold.
- Drain required with standpipe diameter of 1-1/4" min. and height of 24" min./96" max. above floor, capable of eliminating 17 gallons per minute. Attached 59" drain hose can reach 79"-high standpipe.

**Note:** For planning purposes only. Refer to Product Installation Guide on the web at [electroluxappliances.ca](http://electroluxappliances.ca) for detailed instructions.
