Integrated French Door Refrigerator 16.8cu ft, Ice

Integrated

This 72" Fisher & Paykel French Door Refrigerator is designed to fit flush with your kitchen cabinetry for a seamless look. ActiveSmart™ FoodCare technology helps keep food fresher for longer.

Dimensions

Depth	23 3/4"
Height	71 13/16"
Width	35 21/32"

Features & Benefits

Clever energy
Your fridge adapts to daily use by cooling and defrosting only when needed. This means your fridge uses the energy it needs without compromising on food care.

Ice maker
Fresh ice is always available for you in a dedicated freezer bin. Simply turn it off to free up freezer space or during busy times, you can boost ice production by up to 30%.

Design quality
Our fridges are designed and built using quality materials. We use real stainless steel on our fridges and solid glass for shelving.

Easy installation
Our integrated products are easy to install, whether you are renovating your kitchen or designing a new one. Our fridges are designed for minimal gaps with adjustable front and rear feet to allow for uneven floors alongside adjustable door panels that can be customized to match your kitchen.

Easy cleaning
No more permanent dirty marks with our EZKleen feature for stainless steel fridges. Anti-fingerprint coating means you simply wipe clean any marks. Spill-safe secure glass shelves easily capture any drips or leaks.

FRONT LOAD WASHERS

4.4 Cu. Ft.

EFLS627U TT /IW

Perfect Steam™ Washer with LuxCare® Wash, SmartBoost™ and IQ-Touch™ Controls

SIGNATURE FEATURES

THE MOST EFFECTIVE STAIN-REMOVING WASHER WITH SMARTBOOST™

Unlike other washers, our washer with SmartBoost™ premixes water and detergent before the cycle begins, maximizing the cleaning power of the detergent.

WORLD'S 1ST ADAPTIVE DISPENSER™ DESIGNED TO ACCEPT PODS®

Get the ultimate clean no matter what type of detergent you prefer with the Adaptive Dispenser™.

PERFECT STEAM™ REMOVES TOUGH STAINS

Unlike many washers, our Perfect Steam™ rises from the bottom, gently lifting dirt and stains from fibers.

THOROUGH CLEANING WITH THE LUXCARE® WASH SYSTEM

Our LuxCare® Wash System offers a thorough clean with improved wash actions, temperature control, and smart load sensing.

PRODUCT DIMENSIONS

Height	38"
Width	27"
Depth	32"

MORE EASY-TO-USE FEATURES

15-MINUTE FAST WASH¹

Quickly deep cleans the items you need most.

SOLID SOIL LEVEL CLEANS CAKED-ON STAINS

The solid soil level gives you a deeper clean to get rid of those tough stains that get caked on, like mud or dirt.

SANITIZE OPTION

Certified to kill and remove 99% of bacteria and 95% of allergens.²

STAINSOAK™ OPTION ELIMINATES PRE-TREAT

Unlike other washers, it starts by premixing water, detergent, and stain remover before the cycle begins to create a powerful, yet gentle cleaning solution. Then, the temperature, tumbling actions, and time are optimized based on the stain you select.

ENERGY STAR®-CERTIFIED

Electrolux washers meet strict criteria to guarantee high-quality energy efficient performance — without sacrificing clean.

ACTIVEWEAR CYCLE

Takes care of delicate and expensive activewear garments.

10-YEAR MOTOR WARRANTY PLUS LIFETIME TUB WARRANTY

Rest easy knowing your washer is backed by a 10-year motor and lifetime tub warranty.

PERFECT BALANCE® SYSTEM & SECOND FLOOR GUARANTEE

Balances loads for smooth, quiet operation. So quiet you can even run your washer on the second floor or near bedrooms without noticing it.³

FITS MORE ROOMS WITH REVERSIBLE WASHER DOOR

With reversible washer door, four-way venting, and a standard 27" platform, our products are designed to fit just about anywhere you want to put them.

EXTRA LARGE CAPACITY

Easily cleans a king-sized comforter with extra large 4.4 cu. ft. drum.

Available in:

Titanium (TT)

Island White (IW)

380

¹Fast time based on 3 lb. 0 oz. load.

²Our products meet the NSF® ActiveCheck.

³As tested on conventional wood floor construction with vinyl floor covering.

FRONT LOAD WASHERS

EFLS62JU TT /W

15" Pedestal Drawer Installation

Elevates washer height to 53 1/4". For detailed pedestal installation, refer to instructions included with pedestal or on web. Pedestal installation may require modified utility hookup locations. For details, refer to Product Installation Guide on web.

Built-In Installations

*Installation with steam dryer requires additional 3/4" hose clearance.

Closet Installation:

If washer and dryer are installed in same closet, door(s) MUST be vented with 120 sq. in. minimum louvered opening, equally divided, located 3" from top and bottom of door. Louvered door(s) with equivalent air openings for full-length of door is acceptable. Air openings MUST remain unobstructed with door(s) installed.

Front Load Washer Specifications

- Product Weight — 237 Lbs. / Shipping Weight — 247 Lbs.
- An electrical supply with grounded three-prong receptacle is required. The power supply circuit must be installed in accordance with current edition of National Electrical Code (ANSI/NFPA 70) and local codes & ordinances. *(Do not use same circuit as dryer.)*
- Voltage Rating — 120V/60Hz
- Connected Load (kW Rating) @ 120 Volts = 1.2 kW
- Amps @ 120V = 12A
- Equipped with 120V 3-wire power supply cord, approx. 60" long.
- Always consult local and national electric & plumbing codes.
- To maximize detergent effectiveness, ambient temperature should never be below 60°F.
- Can be installed alone, with or without optional 15" pedestal drawer, or stacked beneath matching Electrolux Dryer, which requires installation of optional dryer stacking kit. *(For installation details, refer to instructions included with optional pedestal or stacking kit or on web.)*
- Can be built in alone or with matching Electrolux Dryer *(side by side or stacked)* in closet, recess or under counter installation with 0" minimum clearance required around sides and back of unit(s). To achieve 0" minimum rear clearance when installed with dryer, dryer MUST be vented straight back or with quick-turn 90° elbow. Steam dryer requires additional 3/4" steam hose clearance at back of unit(s). Installation of closet door(s) requires additional 1" minimum clearance between front of unit(s) and door(s). Location of plumbing, exhaust and utility hookups MUST be considered when planning any built-in installation.
- Under-counter installation requires custom-built countertop and/or cabinetry to accommodate unit(s) height.

- Do NOT install in area exposed to dripping water or outdoor weather conditions, or where gasoline or other flammables, including automobiles, are kept or stored.
- For garage installation, washer MUST be located minimum 18" above floor.
- Floor MUST be solid with 1" maximum slope. To ensure vibration or movement does not occur, reinforcement of floor may be necessary. Do NOT install on carpeted surface.
- Leveling legs supplied to level washer properly and reduce excessive noise and vibration.
- H/C water faucets MUST be installed within 42" of washer's water inlet and MUST be 3/4" garden hose type, to connect to 48-1/2" inlet hoses.
- Water pressure MUST be between 20 and 120 psi with NOT more than 10 psi pressure difference between hot and cold.
- Drain required with standpipe diameter of 1-1/4" min. and height of 24" min./96" max. above floor, capable of eliminating 17 gallons per minute. Attached 59" drain hose can reach 79"-high standpipe.

Note: For planning purposes only. Refer to Product Installation Guide on the web at electroluxappliances.com for detailed instructions.

Optional Accessories

- Pedestal Drawers — Titanium (PN# EPWD257UTT), Island White (PN# EPWD237UWW).

ELECTRIC FRONT LOAD DRYERS

8.0 Cu. Ft.

EFMC627U TT/IW

Perfect Steam™ Dryer with Instant Refresh™ and IQ-Touch™ Controls

SIGNATURE FEATURES

PREDICTIVE DRY™ MORE ACCURATELY PREDICTS DRY TIMES
Knows after 90 seconds a more accurate time your clothes will be dried to perfection so you don't have to keep checking on your load.

HELP PREVENT OVER- OR UNDER-DRYING WITH LUXCARE® DRY SYSTEM
A more precise sensor for a better dry to protect your clothes from over-drying, but also to help make sure you don't have wet clothes left in the load.

INSTANT REFRESH™ CYCLE REVIVES FABRICS
Remove wrinkles and quickly refresh items with steam in 10 minutes.

15-MINUTE FAST DRY¹
Quickly dry the items you need most.

PRODUCT DIMENSIONS

Height	38"
Width	27"
Depth	31-1/2"

MORE EASY-TO-USE FEATURES

ENERGY STAR®-CERTIFIED
Rigorously tested to do more with less. Electrolux dryers meet strict criteria to guarantee high-quality energy efficient performance.

PERFECT STEAM™ WRINKLE RELEASE OPTION
Gently releases wrinkles and reduces static to keep clothes looking their best.

EXTENDED TUMBLE OPTION KEEPS CLOTHES TANGLE-FREE
Gently tumbles your clothes without heat to keep them tangle-free — perfect for when you cannot remove clothes right after the cycle ends.

LUXCARE® LINT SHIELD HELPS AVOID MESSSES
Traps lint so it doesn't make a mess, even if you empty it while there are clothes in the dryer.

ACTIVWEAR CYCLE
Takes care of delicate and expensive activewear garments.

EXTRA-LARGE CAPACITY DRYER
Dry more in each load with our 8.0 cu.ft. dryers.

PLATINUM STAR® LIMITED WARRANTY
Our exclusive limited warranty that includes three-year coverage on parts and one year on labour.*

9 CYCLES TO CARE FOR EVERY FABRIC
Perfectly dry every item with tailored cycles for towels, allergen, delicates, and more.

FITS MORE ROOMS WITH REVERSIBLE DOOR
Enjoy easy loading no matter how your washer and dryer are configured.

OPTIONAL PEDESTALS AND STACKING KIT FOR MORE INSTALLATION OPTIONS
Raise your units with optional pedestal drawers that provide extra storage. Or use the optional stacking kit for convenient placement in small spaces.

Available in:

09504

*Based on an annual load of 12. Dry cycle selected for various load compositions.
¹Appliances tested on standard registration with Institute for Business and Economics within 90 days of purchase. Products must have been purchased on or after July 1, 2013. See limited warranty for details. Limited time offer.

ELECTRIC FRONT LOAD DRYERS

EFMC62JU TT/1M

15" Pedestal Drawer Installation

Elevates dryer height to 53 3/4". For detailed pedestal installation, refer to instructions included with pedestal or on web. Pedestal installation may require modified utility hookup locations. For details, refer to Product Installation Guide on web.

Built-In Installations

*Steam dryer requires additional 3/4" hose clearance.

Closet Installation:

If washer and dryer are installed in same closet, door(s) MUST be vented with 120 sq. in. minimum louvered opening, equally divided, located 3" from top and bottom of door. Louvered door(s) with equivalent air openings for full-length of door is acceptable. Air openings MUST remain unobstructed with door(s) installed.

Installation Clearances:

Dryer can be built in alone or with washer (side by side or stacked) in closet, recess or under counter installation with 0" minimum clearance required around sides and back of unit(s). To achieve 0" minimum rear clearance, dryer MUST be vented straight back or with quick-turn 90° elbow. Steam dryer requires additional 3/4" steam hose clearance at back of unit(s). Installation of closet door(s) requires additional 1" minimum clearance between front of unit(s) and door(s). Location of plumbing, exhaust and utility hookups MUST be considered when planning any built-in installation. For additional installation details, refer to Product Installation Guides on web.

Under Counter Installation:

Installation of dryer alone or side by side with washer under counter, requires custom-built countertop and/or cabinetry to accommodate unit(s) height.

Stacking Units:

Stacking dryer above washer requires use of optional Stacking Kit (PN# STACKIT7X) with modified utility hookup locations for dryer. For complete installation details, refer to instructions included with Stacking Kit or on web.

Electric Dryer Specifications

- Product Weight – 130 Lbs. / Shipping Weight – 140 Lbs.
- Voltage Rating – 240/60Hz/30A
- Single phase 3- or 4-wire cable, 240 Volt, 60 Hertz AC only electrical supply with ground required on separate circuit fused on both sides of line. (Do not use same circuit as washer.)
- Connected Load (kW Rating) @ 240 Volts = 6.0 kW
- Amps @ 240V = 25A
- Dryer MUST employ a 3-conductor NEMA 10-30 type SRDT or 4-conductor NEMA 14-30 type SRDT or ST (as required), rated at 240 volt AC minimum, 30 amp power supply cord marked for use with clothes dryers (not supplied).
- Grounding through neutral link prohibited in specific applications and certain locales, requiring use of 4-wire system. (For detailed electrical requirements, refer to Product Installation Guide on web.)
- Always consult local and national electric & plumbing codes.
- Can be installed alone, with or without optional 15" pedestal drawer, or stacked above matching Electrolux Washer, which requires installation of optional dryer stacking kit. (For installation details, refer to instructions included with optional pedestal or stacking kit or on web.)
- Can be built in alone or with matching Electrolux Washer (side by side or stacked) in closet, recess or under counter installation with 0" minimum clearance required around sides and back of unit(s). To achieve 0" minimum rear clearance, dryer MUST be vented straight back or with quick-turn 90° elbow. Steam dryer requires additional 3/4" steam hose clearance at back of unit(s). Installation of closet door(s) requires additional 1" minimum clearance between front of unit(s) and door(s). Location of plumbing, exhaust and utility hookups MUST be considered when planning any built-in installation.
- Under-counter installation requires custom-built countertop and/or cabinetry to accommodate unit(s) height.

- Do NOT install in area exposed to dripping water or outdoor weather conditions, or where gasoline or other flammables, including automobiles, are kept or stored.
- For garage installation, dryer MUST be located minimum 18" above floor.
- Floor MUST be solid with 1" maximum slope. To ensure vibration or movement does not occur, reinforcement of floor may be necessary. Do NOT install on carpeted surface.
- Dryer MUST exhaust to outside of building, NOT into any concealed space.
- Dryer equipped for 4-way venting and approved for up to 125-foot-equivalent of duct length, determined by length of run and number of elbows needed.
- Exhaust installation requires minimum 4" diameter rigid or semi-rigid metal duct with approved, unobstructed vent hood having swing-out dampers(s). If installing rigid metal duct (preferred), do not exceed MAXIMUM venting run length of 125 ft., allow deductions for elbows and vents. If installing semi-rigid metal duct, do not exceed MAXIMUM venting run length of 8 ft., always allow deductions for elbows and vents. (Refer to Product Installation Guide on web for additional information). Do NOT use flexible plastic or metal foil duct and use shortest run possible.
- Leveling legs supplied to level dryer properly and reduce excessive noise and vibration.
- Water inlet hose for steam setting connects to cold water supply with "Y" connector and requires 3/4" clearance between back of unit and wall.

Note: For planning purposes only, Refer to Product Installation Guide on the web at electroluxappliances.ca for detailed instructions.

24" Custom Panel Dishwasher

800 Series – Custom Panel SHVM78Z53N

BOSCH
Invented for life

SHVM78Z53N
Custom Panel

Patented CrystalDry™ technology transforms moisture into heat to get dishes, including plastics, 60% drier.¹

Features & Benefits

42. dBA: dishwasher runs quietly so your kitchen conversations aren't interrupted.

The Flexible 3rd Rack with fold down sides adds 30% more² loading area, perfect for utensils and ramekins.

Touch Control Technology allows for quick cycle programming.

The AquaStop® leak protection system contains leaks through a precisely engineered system. If a leak occurs, the system contains it by shutting down operation and pumping out water. So you have the ultimate peace of mind whether you are away or at home.

General Properties

INTERIOR FINISHES ACKNOWLEDGEMENT / WAIVER

Purchaser accepts and acknowledges that the Builder reserves the right to substitute materials with those of equal or better quality where the manufacture, scheduling or delivery of materials may directly impact the Builder's ability to meet its' contractual obligations under the Agreement of Purchase and Sale.

UPGRADES/EXTRAS: All upgrades and additional selections indicated on the colour chart must be accompanied by an upgrades/extras sheet (PES) and full payment otherwise the selection will be invalid. All colour charts and upgrades/extras will not proceed until verified and signed by an authorized signing officer at the Vendor's head office. **CHANGES WILL NOT BE PERMITTED UPON COMPLETION AND SUBMISSION OF THE COLOUR CHART.**

PORCELAIN & NATURAL STONES: Due to the properties of natural stones including but not limited to **marble, granite, quartz**, no two pieces are exactly the same. Variations in colour, tone, granularity (pitting, fissures) and pattern are to be expected, including various lighting may affect the overall finished look. Stone tops are sealed at time of installation and should never be cleaned with lemon oil or vinegar. Stones are porous materials, therefore any spilled substance require immediate attention. Stone countertops require regular seal re-application as part of home maintenance. Purchaser acknowledges colour and product variations as well as natural imperfections may exist with the selection of natural stone materials and shall not hold the Vendor liable for provision of same.

STONE COUNTERTOP JOINTS: Purchaser is aware that one joint will be at each corner and on either side of slide-in-range (if applicable). It will also be where the length of the counter top exceeds the length of a stone slab. Slabs are usually approximately 5' x 8'.

CERAMIC TILES: Due to manufacturing, shade (dye lots), product variations may exist that can affect the overall look of the finished product. Although every effort will be made to ensure the colours and materials selected are as close as possible to the samples, the purchaser acknowledges that the sample tiles supplied in the Design Centre may not be identical to the materials installed in the home.

STAIR STAINS: Due to the natural properties of wood, many variables can affect the overall look of the finished product. Factors including but not limited to wood type, knotting, graining, density, age, humidity, and air temperature can result in substantial variations in stain intensity. The purchaser accepts that although the Vendor will do their best to match stain the unfinished stairs as close as possible to the pre-finished floors, it is not possible to have an identical match and that there MAY be shade differences between the two products.

CABINETRY: Due to the natural properties of wood, slight variations apparent with cabinetry are to be expected. This includes but not limited to wood species, wood grain, colour, finish, product variations, and natural imperfections are all factors that may affect the overall look of the finished product. Such factors make exact colour matching impossible. The type and intensity of lighting in the areas of designated cabinetry placement may also highlight characteristics of cabinetry finish. All cabinets shall be finished with a white melamine interior box unless a finished interior is upgraded. Due to building specifications and/or on-site conditions, certain cabinetry upgrades may not be possible. The purchaser acknowledges that the Builder cannot guarantee the cabinetry finish or provision of certain upgrades and shall not hold the Builder liable for provision of same.

UPGRADES/EXTRAS: All upgrades and additional selections indicated on the colour chart must be accompanied by an upgrades/extras sheet (PES) and full payment otherwise the selection will be invalid. All colour charts and upgrades/extras will not proceed until verified and signed by an authorized signing officer at the Vendor's head office. **CHANGES WILL NOT BE PERMITTED UPON COMPLETION AND SUBMISSION OF THE COLOUR CHART.**

HARDWOOD / LAMINATE FLOORING: Due to the properties of wood and laminate, many variables can affect the overall look of the finished product. Variations include but not limited to wood type or laminate finish, colour/stain and wood grain are significant factors that make exact colour matching impossible. The purchaser acknowledges that the hardwood flooring is a pre-finished product in a controlled environment. Expansion, compression and cupping are characteristics of hardwood flooring once installed in the home. The purchaser acknowledges these may become apparent over time and despite the Builders' efforts to install the hardwood flooring materials in keeping with good workmanship, the Builder shall not be responsible nor held liable for minor variances of fluctuation in hardwood flooring materials.

HARDWOOD / LAMINATE WAIVER:

I/We understand hardwood flooring is classified as a porous material and as such not recommended by the Builder in certain areas. I/We understand there is a concern due to possible water and other substances being frequently splashed or spilled onto the floor and in contravention of Ontario Building Code Section 9.30.1.2(1).

"Finished flooring bathrooms, kitchens, public entrance halls, laundry & general storage areas shall consist of resilient flooring, felted-synthetic-fibre floor coverings, concrete, terrazzo, ceramic tile, mastic or other types of flooring providing similar degrees of water resistance.

I/We are prepared to assume full responsibility for any damage caused to the hardwood floor or subfloor due to moisture absorbency in the mentioned areas, and agree to waive any claims against the Township of residence, TARIION and/or the Builder in relation to the matter. ****SEE COLOUR CHART FOR LOCATIONS****

RELEASE FORM
BRICK/JOINT PATTERN INSTALLATION

LOT / SITE:

3510 Innisfil

HOMEOWNERS:

Magno

DATE:

Aug 4/2020

* Brick installation requires an additional charge and will be included on the extras if selected *

(Large tiles installation for floor and wall) – ¼ Brick

Please be advised it has come to our attention, that due to production, many of the over-sized and odd shaped, man-made tiles (i.e. porcelain & ceramic), have been found to have a slight bow in the tile. It is a standard occurrence with all suppliers and manufacturers.

It is therefore recommended, that if and when a purchaser requests to install one of these tiles in a brick-joint pattern, that it be installed on a ¼ brick pattern, to try to avoidlippage. Attached with this letter, you will find a layout of the ¼ brick installation that has been recommended.

Locations:

Foyer, H/E.

Please understand, even in using this ¼ brick installation, there may still be minimal lippage which cannot fully be eliminated.

Hence, when there is a request for brick-joint installation, Zancor Homes and their contractor, cannot be held responsible for this matter.

Homeowner(s) Initial

(Small tile installation for walls) – ½ Brick

Purchaser requests to install small wall tiles on a backsplash or shower wall in a brick-joint pattern, that it be installed on a ½ brick pattern.

Locations:

Homeowner(s) Initial
