PLUS FEATURES

AMBIENT LIGHT - Elica studies on hood lighting leaves no stone unturned. Here we have thought about products not only able to light the cooktop, but the entire kitchen space. And so the hood is transformed: from a kitchen appliance to a true lighting element. Considering the design of Elica hoods, it is not hard to imagine how this option is quite unique, and represents one extraordinary point of strength for us.

HUSH SYSTEM - An exclusive sound deadening technology that effectively reduces sound levels up to 35%, compared to typical range hoods.

CFM REDUCTION - CFM Reduction System (CRS) is an exclusive feature to Elica hoods, which enables the user to reduce directly in the glass touch control the maximum blower CFM, to meet local code requirements.

LED LIGHT - LED lighting is undoubtedly the smartest solution in terms of energy saving. Expected life time of over 20,000 hours, represents the most remarkable advantage of LED light bulbs.

DIM-LIGHT - The Dimmer allows you to adjust the brightness of the light as you wish. With Elica, lighting is customized in a discreet, personal and practical way, in order to contribute in creating the perfect kitchen atmosphere.

ELECTRONIC TOUCH CONTROLS - Enjoy the modern design and convenience of multi-function electronic touch controls, which are discreetly hidden behind sleek black glass, and will illuminate a soft blue when activated.

20 cu.ft. 36-Inch Width Counter-Depth French Door Refrigerator with Interior Dispense

KRFC300ESS

This 20 cubic foot refrigerator has a counter-depth design that gives it a built-in look. But the beauty of this French door refrigerator goes beyond the exterior. The ExtendFresh™ Temperature Management System and Produce Preserver help keep food fresh, LED lighting throughout the refrigerator makes food easy to find on every level.

Top Features

ExtendFresh™ Plus Temperature Management System
Ensures ingredients remain fresh for maximum taste and texture using a sensor-controlled system with a variable-capacity compressor. There is one thermistor in the freezer and one thermistor in the refrigerator.

Interior Water Dispenser
Provides easy access to filtered water inside the refrigerator

Produce Preserver
Absorbs ethylene gas emitted by many fruits and vegetables, causing them to over ripen. By removing ethylene, the produce preserver helps extend freshness.

FreshChill™ Temperature-Controlled Full-Width Pantry
Lets you properly store everything from meats to produce with a manual temperature setting. It gives you total control over of the amount of cool air that enters the drawer.
