Good Morning Beverly
I wanted to follow-up on these items. Did Nota install the fridge line?

Hi Beverly,
Sorry I am confused, I was talking about the toilets. Your water line is connected by Appliance Canada. We only supply the line. The appliance company connects this when they do the insulation of the appliances.
Appliance Canada came to install and they said the waterline was not done so they could not install. The builder was suppose to run a quarter inch waterline connected to a valve under the sink and none of that was done and we paid \$375 as an upgrade for it.

Could you please confirm if the following has been completed, if not I will follow up with Nota.

I hope all is well.

Hello,

Bevery

Thanks,

Please let them come today as we have been waiting today as well and this is taking too long.

The bath tub is fine. The toilet seat soft close has not been done. We were told the plumber was suppose to come yesterday and never showed up after we waited all day.
 Also the following issues with the plumber needs to be fixed:
 - water is leaking from under the sink on the main floor bathroom
 - laundry washing machine outlet box is completely broken in the drywall
 - the waterline was suppose to be connected (quarter inch hose), which we paid extra for but was not done
 - kitchen sink needs to be re-sealed

Hi,
